## PATENT ASSIGNMENT AGREEMENT

This PATENT ASSIGNMENT AGREEMENT (“**Patent Assignment**”), dated as of August 23, 2023, is made by each of the named persons set forth in Schedule 1 as “Assignors” in their joint and individual capacities in favour of Actall Corporation (“**Assignee**”), a Colorado corporation, located at 2017 Curtis Street, Denver, CO 80205. Each of the Assignors and the Assignee may be referred to herein separately as a “Party” and collectively as the “Parties.”

**WHEREAS**, each Assignor was, at the time USPTO Application File number 17/158,140 (the “Application”) was filed with the U.S. Patent and Trademarks Office, an employee of the Assignee; and

**WHEREAS**, each Assignor has previously agreed to assign to Assignee any and all interest of each Assignor in and to any patent granted under the Application; and

**WHEREAS**, the USPTO has noticed the Assignors that the USPTO intends to issue a patent and a patent number in respect of the Application upon payment of certain fees to USPTO; and

**WHEREAS**, the Assignors desire to have the Patent issued in the name of the Assignee;

**NOW THEREFORE**, The Parties hereby agree as follows:

1. Assignment. In consideration of the payment of \$1.00 and other good and valuable consideration, the receipt and sufficiency are hereby acknowledged, the Assignors, jointly and severally, hereby irrevocably convey, transfer and assign to Assignee, and Assignee hereby accepts, all of the Assignors right, title and interest in and to the following (the “**Assigned Patents**”):

(a) the patents and patent applications set forth in Schedule 2 hereto and all issuances, divisions, continuations, continuations-in-part, reissues, extensions, re-examinations and renewals thereof (the “**Patents**”);

(b) all rights of any kind whatsoever of Assignors accruing under any of the foregoing provided by applicable law of any jurisdiction, by international treaties and conventions and otherwise throughout the world;

(c) any and all royalties, fees, income, payments and other proceeds now or hereafter due or payable with respect to any and all of the foregoing; and

(d) any and all claims and causes of action, with respect to any of the foregoing, whether accruing before, on and/or after the date hereof, including all rights to and claims for damages, restitution and injunctive and other legal and equitable relief for past, present and future infringement, misappropriation, violation, misuse, breach or default, with the right but no obligation to sue for such legal and equitable relief and to collect, or otherwise recover, any such damages.

2. Recordation and Further Actions. Assignors authorize the Commissioner for Patents and any other governmental officials to record and register this Patent Assignment upon request by Assignee. Each Assignor shall take such steps and actions following the date hereof, including the execution of any documents, files, registrations, or other similar items, to ensure that the Assigned Patents are properly assigned to Assignee, or any assignee or successor thereto.
3. Counterparts. This Patent Assignment may be executed in counterparts, each of which shall be deemed an original, but all of which together shall be deemed to be one and the same agreement. A signed copy of this Patent Assignment delivered by facsimile, e-mail or other means of electronic transmission shall be deemed to have the same legal effect as delivery of an original signed copy of this Patent Assignment. The words "execution," "signed," "signature," and words of like import in this Patent Assignment or in any other certificate, agreement or document related to this Agreement, shall include images of manually executed signatures transmitted by facsimile or other electronic format (including, without limitation, "pdf", "tif" or "jpg") and other **electronic signatures** (including, without limitation, DocuSign and AdobeSign). The use of **electronic signatures** and electronic records (including, without limitation, any contract or other record created, generated, sent, communicated, received, or stored by electronic means) shall be of the same legal effect, validity and enforceability as a manually executed signature or use of a paper-based record-keeping system to the fullest extent permitted by applicable law, including the Federal Electronic Signatures in Global and National Commerce Act, the Colorado State Uniform Electronics Transactions Act and any other applicable law, including, without limitation, any state law based on the Uniform Electronic Transactions Act or the Uniform Commercial Code.
4. Successors and Assigns. This Patent Assignment shall be binding upon and shall inure to the benefit of the parties hereto and their respective successors and assigns.
5. Governing Law. This Patent Assignment and any claim, controversy, dispute or cause of action (whether in contract, tort or otherwise) based upon, arising out of or relating to this Patent Assignment and the transactions contemplated hereby shall be governed by, and construed in accordance with, the laws of the United States and the State of Colorado without giving effect to any choice or conflict of law provision or rule (whether of the State of Colorado or any other jurisdiction)
