## PATENT ASSIGNMENT

WHEREAS, **Falcon's Creative Group, LLC**, a Delaware limited liability company, (“Assignor”), is the owner of the issued patents and pending patent applications listed on Exhibit A hereto (hereinafter, the “Scheduled Patents”); and

WHEREAS, **Falcon's Beyond Global, LLC**, a Florida limited liability company (“Assignee”), desires to acquire the entire right, title and interest in, to and under the Scheduled Patents.

NOW, THEREFORE, for good and valuable consideration, the sufficiency and receipt of which is hereby acknowledged, Assignor hereby assigns and transfers to the Assignee, all right, title and interest to the Scheduled Patents and the inventions therein set forth and described, all reissues and extensions thereof, and any and all letters patent of the United States and other countries which may be granted thereon or therefor; the same to be held and enjoyed by the said Assignee, its assigns or other legal representatives for their own use and enjoyment, to the end of the term or terms for which any of said letters patents have been granted or may be reissued, as fully and entirely as the same would have been held and enjoyed by Assignor had this assignment and sale not been made, together with all rights to sue and recover for any infringement of any of the Scheduled Patents.

Upon the full execution and exchange of this Patent Assignment, at Assignee’s reasonable request, Assignor shall execute and deliver to Assignee such additional assignment documents as Assignee prepares and states is necessary to confirm and effect the assignment and transfer of the Scheduled Patents. At the reasonable request of Assignee, and at Assignee’s sole expense, Assignor shall execute, and shall designate a responsible person (as applicable) who shall in the future, timely execute and deliver all such assignment documents to Assignee. Until such time as all of the assignments of the Scheduled Patents as set forth on Exhibit A hereto are duly recorded with the responsible government offices (the “Interim Period”), Assignor acknowledges and confirms that Assignee shall, in any event, be deemed hereunder, to be the owner of all of the Scheduled Patents and Assignee shall be solely responsible (at Assignee’s sole cost and expense) for maintaining, enforcing, prosecuting and defending all such Scheduled Patents.

In the event that any of the Scheduled Patents shall become due for any maintenance filings or other recordations during the Interim Period, Assignor shall likewise cooperate with Assignee’s requests and hereby consents and grants to Assignee the right to take whatever action is necessary, in Assignee’s reasonable judgment, and at Assignee’s expense, to maintain and enforce all registrations and other filings in the U.S. Patent and Trademark Office and the patent offices of other relevant countries. All recordations and filings of assignments of the Scheduled Patents and other materials confirming ownership by Assignee shall be made at Assignee’s sole expense.

This Patent Assignment shall be binding on the respective successors and assigns of Assignor and Assignee.

IN WITNESS WHEREOF, Assignor and Assignee have each caused this Patent Assignment to be signed in its legal name by its duly authorized officer this 27 day of June, 2023.
