ASSIGNMENT ACKNOWLEDGEMENT AND RATIFICATION

WHEREAS, FUTUREWEI TECHNOLOGIES, INC., a corporation of the state of Texas, located at 15851 Dallas Parkway, Suite 650, Addison, TX 75001, (hereinafter referred to as "Assignor"), was previously identified as the assignee of the invention described and set forth in the below-identified applications for Letters Patent,

Application No	Application Title	Application Date	RO
62728309	High Refractive Index Waveguide For Augmented Reality	2018-09-07	US

WHEREAS, Assignor's interest in the above-identified invention and patent application was assigned to Huawei Technologies Co., Ltd. by the application date indicated above.

WHEREAS, HUAWEI TECHNOLOGIES CO., LTD., a corporation of China, located at Huawei Administration Building, Bantian, Longgang District, Shenzhen, 518129, Guangdong, P.R. China (hereinafter referred to as "Assignee"), desires to obtain a written assignment acknowledgement and ratification (hereinafter referred to as "acknowledgment") that is specific to the above-referenced invention and application, and any Letters Patent and Registrations that may be granted, and wherever such Letters Patent and Registrations may be granted on the same. For good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged by Assignor, Assignor acknowledges that it has assigned to Assignee all right (including the right to claim priority and the right to sue for and to recover damages for infringement by any unauthorized third party before the date of the Assignment or this Acknowledgement), title, and interest in and to the invention and application (including any priority applications) and to all foreign counterparts (including patents, utility models, and industrial designs), and in and to any Letters Patent and Registrations that may hereafter be granted on the same in the United States and all countries throughout the world, and to claim the priority from the application as provided by the Paris Convention. Assignor also hereby ratifies that previous assignment. The right, title and interest is to be held and enjoyed by Assignee and Assignee's successors and assigns as fully and exclusively as it would have been held and enjoyed by Assignor had this Acknowledgement not been made, for the full term of any Letters Patent and Registrations that may be granted thereon, as well as for any division, renewal, continuation in whole or in part, substitution, conversion, reissue, reexamination, supplemental examination, prolongation or extension thereof.

Assignor further agrees that it will, with respect to the assigned and, without charge to Assignee, but at Assignee's expense, (a) cooperate with Assignee in the prosecution of U.S. Patent applications and foreign counterparts on the invention and any improvements, (b) execute, verify, acknowledge and deliver all such further papers, including patent applications and instruments of transfer, and (c) perform such other acts as Assignee lawfully may request to obtain or maintain Letters Patent and Registrations for the invention and improvements or division, renewal, continuation in whole or in part, substitution, conversion, reissue, reexamination, supplemental examination, prolongation or extension thereof which may be granted thereon, in any and all countries, and to vest title thereto in Assignee, or Assignee's successors and assigns.

All matters pertaining to interpreting of the provisions of this Acknowledgement shall be governed and construed in accordance with the laws of the State of Texas, United States of America, excluding Texas's conflict of law principles that could cause the application of the laws of any other jurisdiction.

This Acknowledgement confirms the effective date of the Assignment to be the date that the Application is filed, or a priority date or priority dates that the application claims, whichever is earlier. This Acknowledgement is hereby agreed by both Assignee and Assignor on the date when the Assignee signs this Acknowledgement, or the date when the Assignor signs this Acknowledgement, whichever is later.
