CONFIRMATORY ASSIGNMENT

WHEREAS, SwaddleDesigns, LLC, a Washington State limited liability company, having a principal address at 500 Andover Park East, Tukwila, Washington 98188, has previously entered into an assignment agreement to assign the entire right, title, and interest in the inventions described and claimed in the patent assets listed in the attached **Schedule A** (hereinafter referred to as "INVENTIONS"); and

WHEREAS, an assignment for each of the INVENTIONS was executed through a Bill of Sale entered into effective April 28, 2023 between SwaddleDesigns, LLC and SQE, Incorporated, a Washington corporation; and

WHEREAS, SwaddleDesigns, LLC, (referred to herein as "ASSIGNOR") wishes to provide, via this Confirmatory Assignment, a complete and formal transfer of all rights originating with said INVENTIONS in a form suitable for recordation; and

WHEREAS, SQE, Inc, having a principal address at 522 West Riverside Avenue, Ste. N, Spokane, WA 99201 (hereinafter referred to as "ASSIGNEE"), is desirous of acquiring the entire right, title, and interest in and to any letters patent that have been or may be granted therefor in the United States and in any and all foreign countries, and/or has already acquired the entire right, title and interest in and to the INVENTIONS through other means;

NOW, THEREFOR, in exchange for good and valuable consideration, the receipt of which is hereby acknowledged, ASSIGNOR hereby sells, assigns and transfers unto said ASSIGNEE, effective April 28, 2023, the entire right, title and interest in and to said inventions, said applications and any and all letters patent which have been or may be granted for said inventions in the United States of America and its territorial possessions and in any and all foreign countries, and in any and all non-provisional applications, divisions, reissues and continuations, continuations-in-part thereof, including the right to file foreign applications directly in the name of ASSIGNEE and to claim priority rights deriving from corresponding United States application(s) to which said foreign applications are entitled by virtue of international convention, treaty or otherwise, said inventions, applications and all letters patent on said inventions to be held and enjoyed by ASSIGNEE and its successors and assigns as fully and entirely as the same would have been held and enjoyed by ASSIGNOR had this assignment,

transfer and conveyance not been made including any claims with respect to infringement thereof accruing prior to this ASSIGNMENT. ASSIGNOR hereby authorizes and requests the Commissioner of Patents and Trademarks to issue and assign all letters patent on said inventions to ASSIGNEE.

ASSIGNOR does hereby further agree and promise to execute all instruments and render all such assistance as ASSIGNEE may request in order to: make and prosecute any and all applications on the inventions, maintain and enforce any and all patents on the inventions, and confirm in ASSIGNEE legal title to the inventions and all applications and patents on the inventions in the United States and foreign countries, all without charge to ASSIGNEE but at no expense to me. In the event that ASSIGNEE is unable for any reason, after reasonable effort, to secure my signature on any document needed in connection with the actions specified in this paragraph, or to otherwise perfect in ASSIGNEE the entire right, title, and interest in and to the inventions, ASSIGNOR hereby irrevocably designates and appoints the ASSIGNEE and its duly authorized officers and agents as its agent and attorney in fact, to act for and in its behalf to execute, verify and file any such documents and to do all other lawfully permitted acts to further the purposes of this assignment with the same legal force and effect as if executed by ASSIGNOR. ASSIGNOR hereby waives and quitclaims to the ASSIGNEE any and all claims, of any nature whatsoever, which ASSIGNOR now or may hereafter have for infringement of any proprietary rights assigned to the ASSIGNEE, including the right to sue and collect damages from such infringement.

If any provision of this assignment is held by any court to be unenforceable, such provision shall be interpreted to accomplish the objectives of the original provision to the fullest extent allowed by law, and the remainder of this assignment shall remain in full force and effect.

Electronic signatures are permitted and are enforceable as original signatures. Faxed, electronically delivered and scanned executed documents will be considered originals for purposes of confirming an enforceable agreement. This agreement may be signed in counterparts.
