BACKGROUND: in order to prepare the transferor to be included in a clean-up merger in the UK, remaining IP rights registered under the transferor have to be moved to the appropriate transferees. After discussion with technology tax manager, a confirmatory assignment was approved given the economic ownership for such IP no longer resides with the transferor.

<u>Transferor</u>	<u>Transferee</u>	<u>Value</u>	<u>Method/comments</u>
M-I Drilling Fluids UK Limited	Schlumberger Oilfield UK Limited	None	Confirmatory assignment based on the logic that this IP is already economically owned by SOUK after the business transfer to SOUK. IP is mainly patents for a number of countries. MI IP was not reorganized and after the business transfer, this activity sits with SOUK and MIDF does not commercialize nor holds this IP at value.

CONFIRMATORY ASSIGNMENT

Effective 1 June 2023

WHEREAS,

M-I DRILLING FLUIDS UK LIMITED (Assignor)

Company of: United Kingdom

Located at: 1 Enterprise Drive, Westhill Industrial Estate, Westhill Aberdeen, Aberdeenshire, Scotland AB32 6TQ, United Kingdom

Hereinafter referred to as the "Assignor", is the record owner of the invention described and set forth in the patents identified on the attached Schedule A ("Patents") and of the referred rights set forth in the trademarks included in Schedule A ("Trademarks").

WHEREAS,

SCHLUMBERGER OILFIELD UK LIMITED (Assignee)

Company of: United Kingdom

Located at: Minerva, Manor Royal, Crawley, RH10 9BU, United Kingdom

Referred to as "Assignee," both collectively and individually, is desirous of acquiring an interest in the Patents and Trademarks specified in Schedule A for the countries set forth in such Schedule A.

For good and valuable consideration, receipt of which is hereby acknowledged by Assignor, Assignor has assigned, and by these presents does assign effective as of the date first stated above, to Assignee all right, title and interest in and to the Patents and Trademarks to all foreign counterparts (including patent, trademarks, model and industrial designs), and in and to any Letters Patent and Registrations which may hereafter be granted on the same in all countries throughout the world, and to claim the priority from the Patents and the Trademarks as provided by the Paris Convention. The right, title and interest is to be held and enjoyed by Assignee and Assignee's successors and assigns as fully and exclusively as it would have been held and enjoyed by Assignor had this Assignment not been made, for the full term of any Letters Patent and Registrations which may be granted thereon, or of any division, renewal, continuation in whole or in part, substitution, conversion, reissue, prolongation or extension thereof. This Assignment is made on an "as is" basis, without any representation or warranty. This Assignment is being made with the understanding of, and expressly relies on, that Assignee agrees to indemnify and hold harmless the Assignor for any and all matters relating to this Assignment, including but not limited to matters related to the right or title of the items subject to this Assignment.

Assignor further agrees that it will, without charge to Assignee, but at Assignee's expense, (a) cooperate with Assignee in the prosecution of patent applications and foreign counterparts on the Patents and any improvements, (b) execute, verify, acknowledge and deliver all such further papers, including patent applications and instruments of transfer, and (c) perform such other acts as Assignee lawfully may request to obtain or maintain Letters Patent and Registrations for the Patents and improvements in any and all countries, and to vest title thereto in Assignee, or Assignee's successors and assigns.
