PATENT REEL: 065063 FRAME: 0856

508147071

In consideration of good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the undersigned joint inventors James Dean SNOW, Jeffrey S. MOORE, Kevin THEUMA, Mo XU and Brian SUNLEY (hereinafter collectively and individually referred to as the Assignor) hereby sell and assign to ABC Technologies Inc. (the Assignee), a corporation having a principle place of business at 2 Norelco Drive, Toronto, Ontario M9L 2X6 CANADA, their entire right, title and interest, including the right to sue for past infringement and to collect for all past, present and future damages, for the United States of America (as defined in 35 U.S.C. § 100) and throughout the world,

- (a) in the invention(s) known as **PIPE COUPLING** for which provisional applications for patents in the United States of America were filed on **September 21**, 2020 (also known as United States Application No. 63/080,826) and **March 9**, 2021 (also known as United States Application No. 63/158,415) in any and all applications thereon, in any and all Letters Patent(s) therefor, and
- (b) in any and all applications that claim the benefit of the patent application listed above in part (a), including non-provisional applications, international applications, continuing (continuation, divisional, or continuation-in-part) applications, reissues, extensions, renewals and reexaminations of the patent application or Letters Patent therefor listed above in part (a), to the full extent of the term or terms for which Letters Patents issue, and
- (c) in any and all inventions and discoveries described in the patent application listed above in part (a), and in any and all forms of intellectual and industrial property protection derivable from such patent application, and that are derivable from any and all continuing applications, reissues, extensions, renewals and reexaminations of such patent application, including, without limitation, patents, applications, utility models, inventor's certificates, and designs together with the right to file applications therefor; and including the right to claim the same priority rights from any previously filed applications under the International Agreement for the Protection of Industrial Property, or any other international agreement, or the domestic laws of the country in which any such application is filed, as may be applicable;

all such rights, title and interest to be held and enjoyed by the above-named Assignee, its successors, legal representatives and assigns to the same extent as all such rights, title and interest would have been held and enjoyed by the Assignor had this assignment and sale not been made.

The Assignor agrees to execute all papers necessary in connection with the application(s) and any non-provisional, international, continuing (continuation, divisional, or continuation-in-part), reissue, reexamination or corresponding application(s) thereof and also to execute separate assignments in connection with such application(s) as the Assignee may deem necessary or expedient.

ABC 177USPROV and ABC 177USPROV2

The Assignor agrees to execute all papers necessary in connection with any derivation or patent enforcement action (judicial or otherwise) related to the application(s) or any non-provisional, continuing (continuation, divisional, or continuation-in-part), reissue or reexamination application(s) thereof and to cooperate with the Assignee in every way possible in obtaining evidence and going forward with such interference or patent enforcement action.

The Assignor hereby represents that the Assignor has full right to convey the entire interest herein assigned, and that the Assignor has not executed, and will not execute, any agreement in conflict therewith.

The Assignor hereby grants the attorneys associated with Customer Number 56719 power to insert in this assignment any further identification that may be necessary or desirable in order to comply with the rules of the United States Patent and Trademark Office for recordation of this document.

IN WITNESS WHEREOF, executed by the undersigned inventors on the date opposite each inventor's name.
