## CONFIRMATORY PATENT ASSIGNMENT

In consideration of the sum of One Dollar (\$1.00) or equivalent and other good and valuable consideration, receipt of which is hereby acknowledged, **Purdue Pharma**, a Canadian limited partnership, having an office and place of business at 575 Granite Court, Pickering, Ontario, L1W 3W8, Canada (hereafter referred to as the "Assignor"), hereby confirms the sale and assignment to **Purdue Pharma L.P.**, a Delaware limited partnership, having an office and place of business at One Stamford Forum, Stamford, CT, 06901-3431, USA (hereafter referred to as the "Assignee"), of its entire right, title and interest for the United States of America (as defined in 35 U.S.C. § 100), including the right to sue for past infringement and to collect for all past, present and future damages, as follows,

WHEREAS, Assignor has assigned and transferred to Assignee on December 3<sup>rd</sup>, 2018, all right, title, and interest in and to certain inventions, patents, and applications (the "Assigned Patents"), including the patents and applications set forth in **Schedule I** attached hereto; and

WHEREAS, a recordable document is needed to demonstrate the assignment of the Assigned Patents noted in the attached **Schedule 1**;

NOW, THEREFORE, for good and valuable consideration, Assignor does hereby confirm that Assignor assigned and transferred to Assignee, its representatives, successors, and assigns, its entire right, title and interest, including the right to sue for past infringement and to collect for all past, present and future damages, in the United States, (a) in the Assigned Patents, in any and all applications thereon, and in any and all Letters Patent(s) therefor, and (b) in any and all patents and applications in the United States that claim the benefit of the Assigned Patents (a), including continuing applications (continuation, divisional, or continuation-in-part), reissues, extensions, renewals and reexaminations of the patent applications or Letters Patent therefor listed above in part (a), to the full extent of the term or terms for which Letters Patents issue, and (c) in any and all inventions described in the Assigned Patents listed above in part (a), and in any and all forms of intellectual and industrial property protection derivable from such Assigned Patents, and that are derivable from any and all continuing applications (continuation, divisional, or continuation-in-part), reissues, extensions, renewals and reexaminations of such patents and patent applications, including, without limitation, patents, applications, utility models, inventor's certificates, and designs together with the right to file applications therefor; and including the right to claim the same priority rights from any previously filed applications under the International Agreement for the Protection of Industrial Property, or any other international agreement, or the domestic laws of the country in which any such application is filed, as may be applicable; all such rights, title and interest to be held and enjoyed by the above-named Assignee, its successors, legal representatives and assigns to the same extent as all such rights, title and interest would have been held and enjoyed by the Assignor had this assignment and sale not been made.

The Assignor agrees to execute all papers necessary in connection with the applications and Letters Patents as above, and any non-provisional, continuing (continuation, divisional, or continuation-in-part), reissue, extension, renewal, reexamination, or corresponding applications thereof, and also to execute separate assignments in connection with such applications as the Assignee may deem necessary or expedient.

The Assignor agrees to perform all affirmative acts at Assignee's request and expense that may be necessary to obtain or ensure a grant of a valid patent to the Assignee.

The Assignor hereby represents that Assignor has full right and authority to convey the entire interest herein assigned, and that Assignor has not executed, and will not execute, any agreement in conflict therewith.

The Assignor hereby grants the Assignee the power to insert in this assignment, including the attached Schedule 1, any further information regarding the patents and patent applications so identified in such Schedule 1 that may be necessary or desirable in order to comply with the rules of the United States Patent and Trademark Office for recordation of this document.
