PATENT ASSIGNMENT

This Patent Assignment ("**Assignment**") is made and entered into between:

Altis Movement Technologies, Inc., with its head office at 727 NE 3rd Ave, Suite 300,
Fort Lauderdale, FL 33304 United States of America ("**Assignor**"); and

Academy Medtech Ventures, Inc., with its head office at 3800 Gaylord Pkwy, Suite 120,
Frisco, Texas 75034 United States of America ("**Assignee**").

Assignor is the sole owner of the Patents, as defined below, and Assignee desires to acquire all right, title and interest in the Patents and the related rights described below.

For good and valuable consideration, the receipt of which is hereby acknowledged, Assignor does hereby sell, assign, transfer and convey to Assignee and its successors and assigns all right, title and interest that may exist today and in the future to any and all of the following (collectively, the "**Patents**"):

- (1) the patents and patent applications identified in Schedule 1 attached hereto (the "**Listed Patents**");
- (2) patents and patent applications to which any of the Listed Patents directly or indirectly claims, or forms the basis for, priority anywhere in the world;
- (3) reissues, reexaminations, extensions, continuations, continuations-in-part, continuing prosecution applications and divisions of any of the items listed in (1) or (2) of this Assignment;
- (4) foreign counterparts to any of the items listed in (1), (2) or (3) of this Assignment, including utility models, inventors' certificates, industrial design protection and any other form of governmental grants or issuances for the protection of inventions, designs or discoveries;
- (5) inventions, invention disclosures, designs and discoveries described in the items listed in (1) through (4) of this Assignment;
- (6) patents that issue from any of the items listed in (1) through (5) of this Assignment;
- (7) claims, causes of action and enforcement rights of any kind, whether currently pending, filed or otherwise, and whether known or unknown, under or arising from any of the items listed in (1) through (6) of this Assignment, including all rights to pursue and

collect damages, costs, injunctive relief and other remedies for past, current or future infringement of the Patents and including rights afforded under 35 U.S.C. § 154(d);

- (8) royalties, income and other payments due as of the date hereof or hereafter under or arising from any of the items listed in (1) through (7) of this Assignment; and
- (9) rights to apply for, file, register, maintain, extend and renew in any or all countries of the world patents, certificates of invention, utility models, industrial design protection, design patent protection and other governmental grants or issuances of any kind related to any of the items listed in (1) through (8) of this Assignment.

Assignor shall execute and deliver any instruments, and do and perform any other acts and things as may be reasonably necessary or desirable for effecting and evidencing the assignments contemplated hereby, including perfecting the interest of Assignee in and to the Patents or the execution, acknowledgment and recordation of any instruments. Assignor shall not enter into any agreement in conflict with this Assignment.

Assignor hereby authorizes and requests the Commissioner of Patents and any other applicable foreign authorities or patent office to issue any and all patents, utility models or other governmental grants or issuances pertaining to any of the items assigned hereunder in the name of Assignee.

This Assignment will inure to the benefit of Assignee and its successors, assigns and other legal representatives and is binding upon Assignor and its successors, assigns, heirs and legal representatives.
