Assignment of Rights, Title and Interest in Invention

This is an Assignment of all rights, title and interest in and to the Invention entitled:

METHOD FOR PREVENTING CARDIAC ARREST IN A VEHICLE

The Inventor listed below assigns all worldwide rights, title and interest in the Invention to the Assignee listed below.

The Inventor is:

Dr. Yuri Busiashvili
1030 South Glendale Avenue, STE 302
Glendale, CA 91205
(US)

The Assignee of the Invention is:

STAT CAPSULE INC.
1030 South Glendale Avenue, STE 302
Glendale, CA 91205(US)

Therefore, for valuable consideration, the receipt of which is acknowledged by Inventor, Inventor assigns to Assignee 100% of his/her right, title, and interest in the Invention, as well as any other non-provisional patent applications including, but not limited to, foreign design or industrial design applications, applications filed under the Hague Agreement, divisions, continuations, continuations-in-part or Patent Cooperation Treaty (PCT) applications as well as any domestic or foreign patents issued therefrom, regarding the Invention.

The Inventor authorizes the United States Patent and Trademark Office to issue Patents resulting from any patent application filed relating to the Invention to Assignee. The right, title and interest is to be held and enjoyed by Assignee and Assignee's successors and assigns as fully and exclusively as it would have been held and enjoyed by Inventor had this assignment not been made.

The Inventor further agrees to: (a) cooperate with Assignee in the prosecution of any patent application related to the Invention; (b) execute and deliver all such further papers, including patent applications and instruments of transfer as the Assignee or its successor(s) may from time to time require and prepare at its own expense; and, (c) perform such other acts as Assignee lawfully may request to obtain or maintain the Patent for the Invention in any and all countries.

Dr. Yuri Busiashvili
