INTELLECTUAL PROPERTY SECURITY AGREEMENT

This Intellectual Property Security Agreement ("**IP Security Agreement**"), dated as of August 25, 2023, is made by and between Relink US LLC, a Delaware limited liability company (the "**Grantor**") in favor of BR IP Ventures, LP (the "**Security Holder**"), a Delaware limited partnership.

WHEREAS, the Grantor has entered into a Prepaid Forward Agreement, dated as of August 25, 2023 (the "**Purchase Agreement**"), with Security Holder;

WHEREAS, as a condition precedent to the making of the purchase by Security Holder under the Purchase Agreement, Grantor has agreed to convey, assign, pledge and grant to Security Holder a first priority security interest in all of Grantor's right, title and interest in, to and under the Collateral as set forth and defined in the Purchase Agreement (the "**Security Agreement**"); and

WHEREAS, under the terms of the Security Agreement, Grantor has granted to Security Holder a security interest in, among other property, certain intellectual property of Grantor, and has agreed to execute and deliver this IP Security Agreement for recording with governmental authorities, including, but not limited to, the United States Patent and Trademark Office.

NOW THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties agree as follows:

1. Grant of Security. Grantor hereby pledges and grants to Security Holder a continuing security interest in and a general lien upon, and a conditional assignment of, all of the now existing or hereafter acquired right, title, and interest of Grantor in, to, and under the following (the "**IP Collateral**"):

(a) the patents and patent applications set forth in Schedule 1 hereto and all reissues, divisions, continuations, continuations-in-part, renewals, extensions, and reexaminations thereof and amendments thereto (the "**Patents**");

(b) all rights of any kind whatsoever of Grantor accruing under any of the foregoing provided by applicable law of any jurisdiction, by international treaties and conventions, and otherwise throughout the world;

(c) any and all royalties, fees, income, payments, and other proceeds now or hereafter due or payable with respect to any and all of the foregoing; and

(d) any and all claims and causes of action with respect to any of the foregoing, whether occurring before, on, or after the date hereof, including all rights to and claims for damages, restitution, and injunctive and other legal and equitable relief for past, present, and future infringement, dilution, misappropriation, violation, misuse, breach, or default, with the right, but no obligation, to sue for such legal and equitable relief and to collect, or otherwise recover, any such damages.

provided, however, the grant of a security interest in the IP Collateral pursuant to this IP Security Agreement shall not: (a) include or imply the transfer of title of the Patents to Security Holder or to any third party or (b) impair or restrict Grantor's unilateral right to license, or prosecute, the Patents.

2. Recordation. Grantor authorizes the Commissioner for Patents, the Commissioner for Trademarks, and any other government officials to record and register this IP Security Agreement upon request by Security Holder.

3. Loan Documents. This IP Security Agreement has been entered into pursuant to and in conjunction with the Security Agreement, which is hereby incorporated by reference. The provisions of the Security Agreement shall supersede and control over any conflicting or inconsistent provision herein. The rights and remedies of Security Holder with respect to the IP Collateral are as provided by the Purchase Agreement, the Security Agreement, and related documents, and nothing in this IP Security Agreement shall be deemed to limit such rights and remedies.

4. Execution in Counterparts. This IP Security Agreement may be executed in counterparts (and by different parties hereto in different counterparts), each of which shall constitute an original, but all of which when taken together shall constitute a single contract. Delivery of an executed counterpart of a signature page to this IP Security Agreement by facsimile or in electronic (i.e., "pdf" or "tif") format shall be effective as delivery of a manually executed counterpart of this IP Security Agreement.

5. Successors and Assigns. This IP Security Agreement will be binding on and shall inure to the benefit of the parties hereto and their respective successors and assigns.

6. Governing Law. This IP Security Agreement and any claim, controversy, dispute, or cause of action (whether in contract or tort or otherwise) based upon, arising out of, or relating to this IP Security Agreement and the transactions contemplated hereby and thereby shall be governed by, and construed in accordance with, the laws of the United States and the State of Delaware, without giving effect to any choice or conflict of law provision or rule (whether of the State of Delaware or any other jurisdiction).
