INVENTION ASSIGNMENT AGREEMENT

This Invention Assignment Agreement ("Agreement") is made by and between **XI'AN UNIVERSITY OF POSTS AND TELECOMMUNICATIONS**, an entity organized under the laws of the People's Republic of China having its registered office at Chang'an West Street, Chang'an District, Xi'an, Shaanxi, 710121, P.R.C. ("XUPT") and **NOKIA TECHNOLOGIES OY**, a company organized under the laws of Finland, having its registered office at Karakaari 7, FI-02610 Espoo, Finland ("Nokia"), together referred to as "Parties".

WHEREAS:

- (A) XUPT owns an interest in and to the invention identified below by the invention docket reference number and the title of the invention or the application number and filing date ("Invention"). The Invention was created in a research/collaboration project ("Project") between XUPT and Nokia Technologies Oy. The results of the Project are governed by the Project Agreement between XUPT and Nokia Technologies Oy dated March 1, 2017 ("Project Agreement");

Nokia invention docket reference number NC105492

Title of invention disclosure: Efficient and Secure Runtime Attestation for IoT Devices

Application Title: Method and apparatus for attestation

Application number: PCT/CN2018/092814 Filing date: 2018-06-26
(YYYY-MM-DD)

XUPT hereby authorizes and requests a representative of Nokia to insert the application title, application number and filing date when known/received, even after the execution of this document.

- (B) Nokia desires to acquire XUPT's entire right, title and interest in and to the Invention which XUPT has agreed to assign.

NOW THEREFORE IT IS HEREBY AGREED:

1. The Parties acknowledge and agree that in consideration of the promises herein and for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged and confirmed, XUPT hereby acknowledges that XUPT has assigned, sold, transferred, conveyed, granted, and set over, and by these presents does hereby assign, sell, transfer, convey, grant and set over to Nokia and all its successors, assigns and legal representatives the entire right, title and interest (1) in and to the Invention for the United States of America and for all other countries, jurisdictions and political entities of the world, and (2) in and to any and all related inventions ("Related Inventions" as defined below), in accordance with Clause 3 of the Project Agreement.

2. The Parties hereby acknowledge and agree that Related Inventions include all national, regional and international patent applications or any other applications that may be filed for protection including, without limitation, applications for certificates of invention, utility models, industrial design protection, design patent protection, and provisional patent applications wherever filed, that may be granted, registered, or issued with respect to the Invention in any and all jurisdictions, that claim priority to the Invention under Paris Convention (collectively "Applications"). Said Applications include all renewals, reissues, requests for continuing examinations, re-examinations, extensions, continuations, continuations-in-part, continuing prosecution applications, divisions, divisionals or registrations, and Related Inventions include all rights and privileges in said Applications and under any and all letters patent that may be granted in the United States of America and in all other countries resulting from said Applications.
3. XUPT hereby assigns to Nokia all rights to file and prosecute any and all Applications directly in the name of Nokia.
4. XUPT hereby assigns to Nokia all causes of action and enforcement rights related to the Invention and Related Inventions, including, without limitation, the right to sue and to pursue damages, injunctive relief, or other remedies for past, present, or future infringement, misappropriation, or violation of rights related thereto.
5. XUPT hereby authorizes Nokia and all its successors, assigns and legal representatives to make applications for such protection in its own name and to maintain such protection in any and all countries including the United States of America, and to invoke and claim for any application for patent or other form of protection for the Invention, without further authorization from XUPT, any and all benefits, including the rights of priority provided by any and all treaties, conventions, or agreements.
6. XUPT and Nokia hereby consent that a copy of Agreement shall be deemed a full legal and formal equivalent of any document which may be required in any country in proof of the right of Nokia to apply for patent or other form of protection for the Invention and to claim the aforesaid benefit of the right of priority.
7. XUPT requests the respective patent office or governmental agency in each jurisdiction to grant or issue any and all patents or other type of protection for the Invention to Nokia, its successors, assigns and legal representatives, in the United States of America and in all other countries, or to such nominees as Nokia may designate.
8. XUPT undertakes to sign, without charge to Nokia, any documents necessary for patent prosecution and provide Nokia with assistance in maintaining, enforcing or assigning any rights of Nokia to the Invention.

9. XUPT undertakes not to disclose any parts of the Invention to any third party until and unless and only to the extent the Invention has become public.
10. The terms and conditions of this Agreement will inure to the benefit of Nokia, its successors or assigns, and anyone properly designated by them and will be binding upon XUPT, its successors or assigns, and anyone properly designated by them.
11. In the event that a clause or term of this Agreement is regarded invalid, illegal or unenforceable, such invalidity shall not affect the validity of the remaining clauses or terms. The Parties must replace such invalid, illegal or unenforceable clauses or terms with valid clauses or terms that best express the Parties' intent at the time of signing the Agreement.
12. This Agreement may be executed by either handwritten signatures, including the exchange of scanned representations of handwritten signatures, or e-signatures. By using e-signature to sign this Agreement, the Parties acknowledge that execution in this manner creates a binding contract between the Parties.
13. The following Annex is hereby incorporated in this Agreement:
