PATENT SECURITY AGREEMENT

This PATENT SECURITY AGREEMENT (as amended, restated, amended and restated, supplemented or otherwise modified from time to time, the “Patent Security Agreement”) dated November 9, 2023, is made by each Person listed on the signature pages hereof (each, a “Grantor”) in favor of WHITEHORSE CAPITAL MANAGEMENT, LLC (“WhiteHorse”), as administrative agent and collateral agent for the Secured Parties (together with its successors and permitted assigns, in such capacities, the “Collateral Agent”). Capitalized terms used herein and not otherwise defined herein shall have the respective meanings assigned to such terms in the Credit Agreement described below and the Security Agreement described below, as applicable.

WHEREAS, KORE WIRELESS GROUP INC., a Delaware corporation (the “Borrower”), solely with respect to Section 7.16, Section 8.01 (as applicable), and Section 10.22, KORE GROUP HOLDINGS, INC., a Delaware corporation (“Kore Holdings”), MAPLE INTERMEDIATE HOLDINGS INC., a Delaware corporation (“Holdings”), Collateral Agent, and each Lender from time to time party thereto (collectively, the “Lenders” and individually, a “Lender”) have entered into a certain Credit Agreement, dated as of November 9, 2023, (the “Closing Date”) (as amended, restated, extended, replaced, refinanced, amended and restated, supplemented or otherwise modified from time to time, the “Credit Agreement”), pursuant to which the Lenders have severally agreed to make Loans, the L/C Issuers to issue Letters of Credit and certain other Secured Parties to make other financial accommodations to the Borrower and the Restricted Subsidiaries upon the terms and subject to the conditions therein.

WHEREAS, in connection with the Credit Agreement, the Grantors have entered into a certain Security Agreement, dated as of the Closing Date (as amended, restated, amended and restated, supplemented or otherwise modified from time to time, the “Security Agreement”), in order to induce the Lenders to make Loans, the L/C Issuers to issue Letters of Credit and certain other Secured Parties to make other financial accommodations to the Borrower and the Restricted Subsidiaries.

WHEREAS, under the terms of the Security Agreement, the Grantors have granted to the Collateral Agent, for the benefit of the Secured Parties, a security interest in, among other property, certain Intellectual Property of the Grantors, and have agreed as a condition thereof to execute this Patent Security Agreement for recording with the United States Patent and Trademark Office.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, each Grantor agrees as follows:

SECTION 1. Grant of Security. Each Grantor hereby grants to the Collateral Agent for the benefit of the Secured Parties a security interest in all of such Grantor’s right, title and interest in and to the following (the “Collateral”), in each case, other than Excluded Property:

- (a) all Patents, including the issued and pending Patents in the United States Patent and Trademark Office that are set forth in Schedule A hereto;
- (b) all Proceeds and products of the foregoing; and
- (c) all causes of action arising prior to or after the date hereof for infringement of any of the Patents.

SECTION 2. Security for Obligations. The grant of a security interest in the Collateral by each Grantor under this Patent Security Agreement secures the payment of all Obligations of such Grantor now or hereafter existing under or in respect of the Loan Documents, whether direct or indirect, absolute

or contingent, and whether for principal, reimbursement obligations, interest, premiums, penalties, fees, indemnifications, contract causes of action, costs, expenses or otherwise. Without limiting the generality of the foregoing, this Patent Security Agreement secures, as to each Grantor, the payment of all amounts that constitute part of the secured Obligations and that would be owed by such Grantor to any Secured Party under the Loan Documents but for the fact that such secured Obligations are unenforceable or not allowable due to the existence of a bankruptcy, reorganization or similar proceeding involving a Grantor.

SECTION 3. Recordation. This Patent Security Agreement has been executed and delivered by each Grantor party hereto for the purpose of recording the grant of security interest herein with the United States Patent and Trademark Office. Each Grantor authorizes and requests that the Commissioner for Patents and the Commissioner for Trademarks record this Patent Security Agreement.

SECTION 4. Execution in Counterparts. This Patent Security Agreement may be executed in any number of counterparts, each of which when so executed shall be deemed to be an original and all of which taken together shall constitute one and the same agreement.

SECTION 5. Grants, Rights and Remedies. This Patent Security Agreement has been entered into in conjunction with the provisions of the Security Agreement. Each Grantor does hereby acknowledge and confirm that the grant of the security interest hereunder to, and the rights and remedies of, the Collateral Agent with respect to the Collateral are more fully set forth in the Security Agreement, the terms and provisions of which are incorporated herein by reference as if fully set forth herein. In the event of any conflict between the terms of this Patent Security Agreement and the terms of the Security Agreement, the terms of the Security Agreement shall govern.

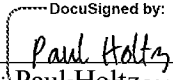

SECTION 6. Governing Law. THIS PATENT SECURITY AGREEMENT SHALL BE GOVERNED BY, AND CONSTRUED IN ACCORDANCE WITH, THE LAWS OF STATE OF NEW YORK. The provisions of Section 6.09(b) of the Security Agreement are incorporated herein, *mutatis mutandis*.

SECTION 7. Severability. In case any one or more of the provisions contained in this Patent Security Agreement should be held invalid, illegal or unenforceable in any respect, the validity, legality and enforceability of the remaining provisions contained herein and in the Security Agreement shall not in any way be affected or impaired thereby (it being understood that the invalidity of a particular provision in a particular jurisdiction shall not in and of itself affect the validity of such provision in any other jurisdiction). The parties hereto shall endeavor in good-faith negotiations to replace the invalid, illegal or unenforceable provisions with valid provisions the economic effect of which comes as close as possible to that of the invalid, illegal or unenforceable provisions.

[Signature Pages Follow]

IN WITNESS WHEREOF, each Grantor has caused this Patent Security Agreement to be duly executed and delivered by its officer thereunto duly authorized as of the date first above written.
