RECEIPT INFORMATION

EPAS ID: PAT8250120
Receipt Date: 10/31/2023

PATENT SECURITY AGREEMENT dated as of October 16, 2023 (this “Agreement”), among NCR ATLEOS CORPORATION, a Maryland corporation (the “Company”), each subsidiary of the Company party hereto and CITIBANK, N.A. (“Citibank”), as Notes Collateral Agent.

Reference is made to (a) the Indenture dated as of September 27, 2023 (as amended, supplemented or otherwise modified from time to time, the “Indenture”), among the Company, NCR Atleos Escrow Corporation, Citibank, as Trustee, and Citibank, as Notes Collateral Agent and (b) the Notes Collateral Agreement dated as of October 16, 2023 (as amended, supplemented or otherwise modified from time to time, the “Collateral Agreement”), among the Company, the Guarantors from time to time party thereto and Citibank, as Notes Collateral Agent. The Secured Notes Secured Parties have agreed to purchase the Notes subject to the terms and conditions set forth in the Indenture. The obligations of the Secured Notes Secured Parties to purchase the Notes are conditioned upon, among other things, the execution and delivery of this Agreement. The subsidiaries of the Company party hereto are Affiliates of the Company, have derived and will derive substantial benefits from the extension of credit to or for the benefit of the Company and its Subsidiaries pursuant to the Indenture and are willing to execute and deliver this Agreement in order to induce the Secured Notes Secured Parties to purchase the Notes. Accordingly, the parties hereto agree as follows:

SECTION 1. Terms. Each capitalized term used but not otherwise defined herein shall have the meaning specified in the Indenture or the Collateral Agreement, as applicable. The rules of construction specified in Section 1.03 of the Indenture also apply to this Agreement, *mutatis mutandis*.

SECTION 2. Grant of Security Interest. As security for the payment or performance, as the case may be, in full of the Secured Notes Obligations, each Grantor hereby grants to the Notes Collateral Agent, its successors and assigns, for the benefit of the Secured Notes Secured Parties, a security interest in all right, title and interest in, to and under any and all of the following assets now owned or at any time hereafter acquired by such Grantor or in, to or under which such Grantor now has or at any time hereafter may acquire any right, title or interest (collectively, the “Patent Collateral”):

(a) all letters patent of the United States of America or the equivalent thereof in any other country, all registrations and recordings thereof and all applications for letters patent of the United States of America or the equivalent thereof in any other country or any political subdivision thereof, including registrations, recordings and pending applications in the United States Patent and Trademark Office or any similar offices in any other country or any political subdivision thereof, including any of the foregoing listed on Schedule I, and (b) all reissues, continuations, divisionals, continuations-in-part, reexaminations, supplemental examinations, *inter partes* reviews, renewals, adjustments or extensions thereof, and the inventions disclosed or claimed therein, including the right to make, have made, use, sell offer to sell, import or export the inventions disclosed or claimed therein. Notwithstanding anything herein to the contrary, if any Grantor and the Notes Collateral Agent shall agree that any asset included in the “Patent Collateral” is an Excluded Asset, the security interest granted under this Section 2 shall thereafter not attach to, and the term “Patent Collateral” shall not include, such Excluded Asset; provided

that the security interest shall immediately attach to, and the Patent Collateral shall immediately include, any such asset (or portion thereof) upon such asset (or such portion) ceasing to be an Excluded Asset.

SECTION 3. Collateral Agreement. The security interests granted to the Notes Collateral Agent herein are granted in furtherance, and not in limitation of, the security interests granted to the Notes Collateral Agent pursuant to the Collateral Agreement. Each Grantor hereby acknowledges and affirms that the rights and remedies of the Notes Collateral Agent with respect to the Patent Collateral are more fully set forth in the Collateral Agreement, the terms and provisions of which are hereby incorporated herein by reference as if fully set forth herein. In the event of any conflict between the terms of this Agreement and the Collateral Agreement, the terms of the Collateral Agreement shall govern.

SECTION 4. Counterparts; Integration; Effectiveness; Electronic Signatures. This Agreement may be executed using Electronic Signatures and each of the New Subsidiary and the Notes Collateral Agent agree that Section 6.05 of the Collateral Agreement shall apply to this Agreement, mutatis mutandis, as if such Section 6.05 of the Collateral Agreement had been fully set forth herein.

SECTION 5. Concerning the Notes Collateral Agent. Citibank, N.A. is entering into this Agreement solely in its capacity as Notes Collateral Agent and not in its individual or corporate capacity. In acting hereunder, the Notes Collateral Agent shall be entitled to all of the rights, privileges, protections, indemnities and immunities of the Notes Collateral Agent set forth in the Indenture and the Collateral Agreement as if such rights, privileges, protections, indemnities and immunities were set forth herein (and shall be subject to the obligations set forth therein).
