ASSIGNMENT

WHEREAS, WE, **BRAD CROSS, TERRY FRYAR and NICHOLAS FREED** (hereinafter "ASSIGNORS"), have invented the **SYSTEMS AND METHODS FOR DETECTION OF TRAVELERS AT ROADWAY INTERSECTIONS**, filed with the United States Patent Office as Utility Patent Application No. 16/391,024, filed on April 22, 2019.

AND, WHEREAS, **STC, INC.**, a corporation, with an office located at 1201 West Randolph St., McLeansboro, Illinois 62859 (hereinafter "ASSIGNEE"), is desirous of acquiring the entire rights, title and interest in and to said invention and all patent rights therefore;

NOW, THEREFORE, in consideration of One Dollar (\$1.00) and other good and valuable consideration, the receipt of which is hereby acknowledged, I, said ASSIGNOR, do hereby sell, assign, transfer and set over unto said ASSIGNEE, the entire rights, title and interest in and to said invention, including the right to claim priority from the United States application identified above, and in and to all Letters Patent and patent rights which may be granted or issued for said invention, in the United States and all foreign countries, and any reissue, reexamination, continuation, continuation-in-part, division, or extension thereof, the same to be held and enjoyed by said ASSIGNEE, its successors and assigns, as fully and entirely as the same would have been held and enjoyed by me if this Assignment and sale had not been made; and I agree to execute such further applications, powers of attorney, assignments and other documents as may be necessary or desirable to effectuate this Agreement.

AND WE DO HEREBY authorize and request the Commissioner of Patents and Trademarks to issue said Letters Patent, when granted, to the said ASSIGNEE, its successors and assigns, as assignees of the entire right, title and interest in and to said invention, for the sole use and on behalf of said ASSIGNEE, and for its successors and assigns, to the full ends of the terms for which Letters Patent may be granted.

AND WE further grant to ASSIGNEE, its successors and assigns, the right to claim for any application for patent for said invention the full benefit of any international agreement between the United States and any foreign country or countries.

This Assignment may be signed in counterparts, each of which shall be deemed an original and each of which taken together shall constitute one assignment.
