COMPOSITIONS OF 1-(4-BROMO-5-(1-ETHYL-7-(METHYLAMINO)-2-OXO-1,2-DIHYDRO-1,6-NAPHTHYRIDIN-3-YL)-2-FLUOROPHEYL)-3-PHENYLUREA

and identified by Attorney Docket No. DCP-090WO, which was filed in the U.S. Patent and Trademark Office on December 30, 2020, and assigned Application Serial No. PCT/US2020/067560; and

WHEREAS, Bend Research, Inc. (hereinafter "ASSIGNEE"), a company organized and existing under the laws of the State of Oregon and having a business address at 1201 NW Wall Street, Suite 200, Bend, Oregon 97703, desires to acquire an interest therein, in accordance with agreements duly entered into with us;

NOW, THEREFORE, to all whom it may concern, be it known that for and in consideration of said agreements and of other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, we have sold, assigned and transferred and do hereby sell, assign and transfer unto said ASSIGNEE, its successors, assigns and legal representatives, at least as early as the filing date of said application, our entire right, title and interest, which ASSIGNEE accepts, in and throughout the United States of America, its territories and all foreign countries, in and to the invention(s) described in said application, together with our entire right, title and interest, which ASSIGNEE accepts, in and to said application and such Letters Patent as may issue thereon, and applications that claim priority thereto under United States law or international or foreign convention and such Letters Patent (including equivalent granting documents) that may issue thereon, including but not limited to non-U.S., international, non-provisional, continuation, divisional, continuation-in-part, reissue, reexamination, extension, and substitution applications of said application and such Letters Patent, and the right to claim priority to said application for any such applications and Letters Patent, and any right, title and interest we may have in invention(s) and applications to which said application claims priority including U.S. provisional and non-U.S. applications; said invention(s), applications and Letters Patent to be held and enjoyed by said ASSIGNEE for its own use and behalf and for its successors, assigns and legal representatives, to the full end of the term for which said Letters Patent may be granted as fully and entirely as the same would have been held by us had this assignment and sale not been made; we hereby convey all of our rights arising under or pursuant to any and all United States laws and foreign and international agreements, treaties or laws relating to the protection of industrial property by filing any such applications for Letters Patent, including but not limited to any cause(s) of action and damages accruing prior to this assignment, including all rights to exclude others from practicing the claimed invention(s) and all rights to seek any and all remedies in law or equity, including damages and injunctive relief, for past, present, and future infringement. AND, we hereby further agree for ourselves and our executors and administrators to execute upon request any other lawful documents and likewise to perform any other lawful acts which may be deemed necessary to secure fully the aforesaid invention(s) and applications to said ASSIGNEE, its successors, assigns, and legal representatives, but at its or their expense and charges, including the execution of papers for filing and prosecution of non-provisional, substitution, continuation, divisional, continuation-in-part, reissue, reexamination, and corresponding foreign and international patent applications;
