## ASSIGNMENT OF PATENT

**Jetech, Inc.** (Assignor), a corporation organized and existing under the laws of the State of Michigan, having its principal place of business at 2015 Schippers Lane, Kalamazoo, MI 49048, is the owner and current assignee of the following invention for which a patent has been granted in the United States:

Patent No.: US D886,944 S

Issue Date: June 9, 2020

Title: Discharge Valve Assembly

First Named Inventor: Jacob Harmon

**Peroni Pompe SpA** (Assignee), a corporation organized and existing under the laws of Italy, having its principal place of business at Via Tacito 4, Corsico (MI), Italy, desires to acquire the invention and the patent.

In consideration of good and valuable consideration, the receipt of which is acknowledged, Assignor sells, assigns, transfers, and sets over to Assignee or its successors, assigns, or other legal representatives the full and entire right, title, and interest in and to the invention and the patent, including the right of Assignee or its successors, assigns, or other legal representatives to seek reissues or extensions of any patent, which the Assignee may hold and enjoy as fully and entirely as Assignor would have had this assignment and sale not been made.

Assignor agrees that it or its successors, assigns, or other legal representatives will at any time on the request and at the expense of Assignee or its successors, assigns, or other legal representatives, without undue delay, execute and deliver any and all papers and do all lawful acts that may be necessary or desirable to perfect the title to the invention and the patent and to transfer the patent to Assignee.

Assignor further assigns to Assignee or its successors, assigns, or other legal representatives the whole right, title, and interest in and to the invention throughout all countries foreign to the United States, including the right to (1) file any divisional, continuation, and continuation-in-part applications claiming priority to the foreign patent application where such procedure is proper and (2) seek reissues or extensions of any foreign patent. Assignor ratifies any acts of Assignee in applying for a foreign patent in Assignee's own name in any foreign country where such procedure is proper, agrees to execute foreign patent applications in the several countries where

REEL: 065843 FRAME: 0640

it is necessary that they be executed by the inventor, and agrees to execute assignments of foreign patent applications and any patent to be obtained to Assignee.

Assignor grants to Assignee the full right to sue for and recover all profits and damages recoverable for past infringement of the invention and the patent, for Assignee's use and behalf, and for the use and behalf of Assignee's successors, assigns, and other legal representatives.

Assignor represents and warrants that Assignor has the full right to convey the entire interest of the invention and the patent being assigned and has not granted any rights inconsistent with the rights granted in this Assignment.
