**ASSIGNMENT  
AND/OR  
RATIFICATION OF ASSIGNMENT  
OF INTELLECTUAL PROPERTY**

WHEREAS, I, each of the undersigned, hereafter individually and collectively “**Assignor**,” have jointly invented and developed certain new and useful methods, devices, and/or systems that are disclosed, taught and/or claimed in one or more of the applications for patent attached hereto and/or identified below, including each provisional application to which an identified application claims benefit or priority (hereafter, collectively, “**Application**”).

PCT	Wellsite Wet Screening Systems for Proppants and Methods of Using Same	Jeremy Britt Mitchell Christopher Shane Martin	TBD	June 16, 2022

WHEREAS, **PropFlow, LLC** a limited liability company organized and existing under the laws of the state of Texas, and having a principal business address of 28419 Ashton Meadows Ln, Fulshear, TX, hereafter “**Assignee**” and to the extent not already transferred to **Assignee** by an existing assignment obligation from me or by a prior written agreement and/or other legal relationship between **Assignee** and **Assignor**, is desirous of acquiring the entire and exclusive right, title and interest in and to, and possession of: a) the **Application** and all rights thereto; b) the subject matter disclosed, taught and/or claimed in the **Application**; and c) all tangible materials and intangible information concerning the **Application** and its subject matter, including but not limited to, copyrighted materials, know-how, confidential and proprietary information and trade secrets (hereafter, collectively, the “**Intellectual Property**”).

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which I hereby acknowledge, **Assignor** and **Assignee** agree as follows.

**1. Ratification of Prior Assignment.** **Assignor** hereby ratifies and acknowledges the prior assignment to **Assignee** of the aforesaid **Intellectual Property**, which prior assignment transferred the entire and exclusive right, title and interest in and to, and possession and use of, the aforesaid **Intellectual Property**, in all countries, regions and political subdivisions throughout the world, including without limitation, as applicable, the right to claim priority thereto or benefit thereof in all future applications for patent; the right to file and prosecute all related applications in the United States, in any foreign country or with any application filing convention or treaty, disclosing and/or claiming the **Intellectual Property**, in whole or in part, including, without limitation, all provisional applications, non-provisional applications, divisional applications, continuation applications, continuation-in-part applications, renewals, reissues, reexaminations, substitutes or extensions thereof; the right to all patents or other related property right that may be issued or granted thereon anywhere in the world; the right to all income, royalties, damages and payments now or hereafter due or payable with respect to any patent or other right described herein; the right to all causes of action (either in law or in equity); the right to sue, counterclaim, and recover for past, present and future infringement of the rights described herein; all as fully and entirely the same as would have been held and enjoyed by **Assignor** if the transfer and assignment described herein had not been made.

**2. Present Assignment.** To the extent **Assignor** has not already assigned to **Assignee** all or any of the aforesaid **Intellectual Property**, **Assignor** does hereby assign, transfer and forever convey, to **Assignee**, its successors and assigns, the entire and exclusive right, title and interest in and to, and possession and use of, the aforesaid **Intellectual Property**, in all countries, regions and political subdivisions throughout the world, including without limitation, as applicable, the right to claim priority thereto or benefit thereof in all future applications for patent; the right to file and prosecute all related applications in the United States, in any foreign country or with any application filing convention or treaty, disclosing and/or claiming the **Intellectual Property**, in whole or in part, including, without limitation, all provisional applications, non-provisional applications, divisional applications, continuation applications, continuation-in-part applications, renewals, reissues, reexaminations, substitutes or extensions thereof; the right to all patents or other related property right that may be issued or granted thereon anywhere in the world; the right to all income, royalties, damages and payments now or hereafter due or payable with respect to any patent or other right transferred herein; the right to all causes of action (either in law or in equity); the right to sue, counterclaim, and recover for past, present and future infringement of the rights transferred herein; all as fully and entirely the same as would have been held and enjoyed by **Assignor** if the transfer and assignment had not been made.

**3. Prosecution by Assignee.** **Assignor** hereby understands and acknowledges that by executing this document, **Assignor** relinquishes all rights to the **Intellectual Property**, and that **Assignee** will have the exclusive right to prosecute the **Intellectual Property** to the exclusion of the interests of **Assignor**. **Assignee** will have no duty or obligation to keep **Assignor** informed about the **Intellectual Property**, or to seek **Assignor**'s advice or comment about the **Intellectual Property** or to account to **Assignor** in any manner for use made of the **Intellectual Property**.

4. **Issuance to Assignee.** Assignor hereby authorizes and requests the appropriate governmental official to issue any and all patents, certificates, registrations, grants or related property right assigned hereunder, to Assignee, as the owner of the entire and exclusive right, title and interest in and to the same.

5. **Warranty of Title.** Assignor hereby represents, warrants and covenants that Assignor had the full right to convey the interest herein ratified and/or has the full right to convey the interest herein assigned; that Assignor has not executed and will not execute any agreement, instrument or assignment in conflict herewith; and that the rights ratified and/or assigned herein are not subject to any other grant, license or right, including a community property interest, and are not otherwise encumbered.

6. **Further Actions.** Assignor hereby covenants and agrees that Assignor will at any time upon request make, execute and deliver without further compensation, any and all other instruments in writing, including further applications, papers, affidavits, powers of attorney, assignments, and other documents; and do all lawful acts and things, which, in the opinion of Assignee, its successors and assigns, may in any country be required or necessary more effectively to secure to and vest in Assignee, its successors and assigns, the property ratified or transferred herein; and that Assignor will execute any application for reissue, division, continuation, continuation-in-part, counterpart, renewal, reexamination, correction, substitute or extension of said Intellectual Property or any resulting patent or related property right. Assignor covenants and agrees that Assignor will at any time upon request communicate to the Assignee, its successors, assigns or other legal representatives any facts relating to the aforesaid Application and Intellectual Property that are personally known, and will testify as to the same in any interference, litigation, mediation, arbitration or other proceeding when requested to do so.

7. **No Challenge.** Assignor hereby covenants and agrees that Assignor will never challenge or aid the challenge by another of the validity, enforceability, or claim scope of the Intellectual Property ratified or transferred hereunder.

8. **Choice of Law.** Assignor hereby covenants and agrees that the laws of the State of Texas shall control the interpretation and effect of this document and without application of that state's laws concerning conflict of law.

9. **Severability.** Assignor and Assignee hereby agree that this agreement is severable in the event one or more clauses, covenants or obligations set forth in this agreement are found to be invalid or unenforceable by a court of competent jurisdiction. Assignor and Assignee hereby agree that those clauses, covenants, and obligations that are not found to be invalid or unenforceable shall be enforced as if the severed clause, covenant or obligation had never existed.

10. **Legal Counsel.** Assignor UNDERSTANDS AND ACKNOWLEDGES THAT NEITHER IN-HOUSE LEGAL COUNSEL FOR Assignee NOR OUTSIDE LEGAL COUNSEL REPRESENTING Assignee CONCERNING THIS AGREEMENT OR THE Intellectual Property REFERENCED IN THIS AGREEMENT, REPRESENT THE INTERESTS OF Assignor, OR ANY OF THEM, CONCERNING THIS AGREEMENT OR THE Intellectual

**Property** REFERENCED IN THIS AGREEMENT. **Assignor** FURTHER ACKNOWLEDGES AND AGREES THAT HE HAS HAD THE OPPORTUNITY TO CONSULT WITH LEGAL COUNSEL OF HIS OWN CHOOSING AND AT HIS OWN COST CONCERNING THE EFFECT AND PURPOSE OF THIS AGREEMENT AND THE SCOPE OF THE RIGHTS TRANSFERRED HEREUNDER, AND THAT **Assignor** VOLUNTARILY AND WITHOUT RESERVATION OF ANY KIND AGREES TO BE BOUND BY THE TERMS AND CONDITIONS STATED HEREIN.

IN WITNESS WHEREOF, and intending to be bound hereby, **Assignor** and **Assignee** have hereunto set their hand and seal on the following pages.
