## Patent Assignment

This PATENT ASSIGNMENT ("Assignment"), effective as of December 5, 2023, is made by and between Pacific Cooling LLP, an Australian limited liability partnership with its principal place of business and registered office located at 16 Bondi St Mount Hawthorn Perth WA 6016 Australia, together with Jonathan Weinberg, individually, and on behalf of the present successor in interest to or former owner of Weinberg Associates LLP, company number OC427500 with its principal place of business and registered office located at Third Floor, 24 Chiswell Street, London, EC1Y 4YX, United Kingdom (hereinafter each individual or entity, individually and together will be referred to as "Assignor"), and ColdVestPatent LLC, a Delaware limited liability company having a place of business at 1468 Lindacrest Dr Beverly Hills CA 90210 (hereinafter the "Assignee").

### WHEREAS:

- A. Assignor is the sole owner of the inventions, patents and patent applications listed in the attached Exhibit A (hereinafter "Patents"); and
- B. The Assignee is desirous of acquiring all of Assignor's right, title and interest in and to the Patents, without encumbrances.

NOW, THEREFORE, for good and valuable consideration, receipt of which is hereby acknowledged, Assignor has sold, assigned and transferred, and does hereby sell, assign and transfer to the Assignee all right, title and interest without encumbrances in and to:

- i. the Patents, including any and all inventions, invention disclosures and discoveries disclosed or claimed therein or related thereto;
- ii. all United States, foreign and international patents and patent applications, certificates of invention, utility models and any other grants by any governmental entity for the protection of inventions resulting from the Patents, including any and all patents and patent applications disclosing said invention(s) and any patents issuing from such applications, including provisionals, non-provisionals, divisionals, continuations, continuations-in-part, reissues, extensions, and re-examinations of the Patents, along with the rights of priority created by such patents and patent applications under any treaty relating thereto; and
- iii. all past, present and future causes of action and enforcement rights, whether currently pending, filed or otherwise, in connection with the Patents, the patents and patent applications resulting from the Patents and any of the inventions or discoveries described or claimed therein, including without limitation, all rights to sue for any past, present or future infringement of the Patents, including the rights to license and to collect and receive any damages, royalties, injunctive relief, and/or any other settlements or remedies for such infringements, the same to be held and enjoyed by Assignee for its own use and enjoyment, and for the use and enjoyment of its successors, assigns and other legal representatives, to the end of the term or terms thereof as fully and entirely as the same would have been held and enjoyed by Assignor, if this assignment and sale had not been made, subject to any agreements in writing executed between Assignor and Assignee with respect to same executed SUBSEQUENT to the present Assignment.

AND ASSIGNOR COVENANTS, AGREES AND WARRANTS that it has a full and unencumbered title to the Patents hereby assigned, and it further covenants and agrees that it will, at any time upon request, without further compensation, execute and deliver any and all papers or instruments that in the opinion of the Assignee may be necessary or desirable to secure said Assignee the full enjoyment of the rights and properties herein conveyed or intended to be conveyed.
