CONFIRMATORY ASSIGNMENT

This CONFIRMATORY ASSIGNMENT (this "Assignment") coming into force upon September 14, 2023 (the "Effective Date") is between: (i) **L3Harris Technologies, Inc.**, a Corporation duly organized and existing under the laws of the State of Delaware, with its headquarters at 1025 W. NASA Blvd., Melbourne, FL 32901, and **Eagle Technology, L3 Technologies, Inc., Harris Corporation and Harris Global Communications, Inc.**, wholly owned subsidiaries of **L3Harris Technologies, Inc.** ("Assignors"); and (ii) **CROGA INNOVATIONS LIMITED**, a company duly organized and existing under the laws of Ireland with its principal place of business at The Hyde Building, Suite 23, The Park, Carrickmines, Dublin 18, Ireland ("Assignee").

WHEREAS, Assignors owned the patents and patent applications identified on **Schedule A** attached hereto (collectively, the "Assigned Patents") and wish to confirm herewith the assignment of all right, title, and interest in and to the said Assigned Patent to Assignee as set forth below.

NOW, THEREFORE, in consideration of the foregoing and the mutual promises and agreements contained in this Assignment, and for other good and valuable consideration the receipt and sufficiency of which are hereby acknowledged, the parties hereby agree as follows:

1. Assignment. Assignor confirms having transferred, assigned, and conveyed to Assignee, as of the Effective Date, its right, title and interest throughout the world (under any and all laws and in any and all jurisdictions) in and to all of the Assigned Patents. Subject to the foregoing, each of the Assigned Patents will hereafter be for Assignee's own use and enjoyment, and for the use and enjoyment of Assignee's successors and assigns, as fully and entirely as the same would have been held and enjoyed by the Assignor if this Assignment had not been made. The foregoing Assignment includes, without limitation, the rights to (a) register or apply in all countries and regions for patents, utility models, design registrations and like rights of exclusion and for inventors' certificates for the Assigned Patents; (b) prosecute, maintain, and defend the Assigned Patents before any public or private agency, office or registrar including by filing reissues, reexaminations, divisions, continuations, continuations-in-part, substitutes, extensions and all other applications and post issue proceedings included in the Assigned Patents; (c) claim priority based on the filing dates of any of the Assigned Patents under the International Convention for the Protection of Industrial Property, the Patent Cooperation Treaty, the European Patent Convention, the Paris Convention, and all other treaties of like purposes; and (d) sue and recover damages or other compensation for past, present, or future infringements of the Assigned Patents, the right to sue and obtain equitable relief, including injunctive relief, in respect to such infringements, and the right to fully and entirely stand in the place of the Assignor in all matters related to the Assigned Patents.

2. Authorization. Assignor also hereby expressly authorizes the patent office or governmental agency in each and every jurisdiction worldwide (including the Commissioner of Patents and Trademarks in the United States Patent and Trademark Office, and the corresponding entities or agencies in any applicable foreign countries or multinational authorities) (the "Applicable IP Offices") to: (a) issue any and all patents or certificates of invention or equivalent which may be granted upon any of the Assigned Patents in the name of the Assignee, as the assignee to the Assignor's interest therein; and (b) record Assignee as assignee of the Assigned Patents and to deliver to Assignee, and to Assignee's attorneys, agents, successors or assigns, all official documents and communications as may be warranted by this Assignment.

3. Further Assurances. Each party hereby agrees to execute and deliver to the other party

all necessary documents and to take all necessary actions reasonably requested by such party from time to time to confirm or effect the assignments set forth in this Assignment, or otherwise to carry out the purposes of this Assignment, including, without limitation, by providing executed originals of short-form assignment agreements entered into by Assignor and Assignee on the Effective Date for filing or otherwise evidencing the assignments set forth in this Assignment with the Applicable IP Offices; provided, however, that nothing herein will obligate Assignor to incur any cost or pay and expense in connection therewith.
