A receiving apparatus capable of receiving digital contents and commercial messages

which was executed on this date; in, to, and under the said application and any and all provisional, continuation, continuation-in-part, continued prosecution, request-for-continued-examination, and divisional applications thereof; in, to, and under, my exclusive right to make and prosecute any and all applications for patents, reissues, renewals, and extensions thereof; in, to, and under any and all patents and convention and treaty rights of all kinds, in the United States of America and all other countries throughout the world, for all such subject matter; in, to, and under any and all know-how and/or confidential, proprietary, and/or trade secret information relating to any such subject matter, applications, patents, and/or technology; in, to, and under the right to sue for present, past, and future infringement or misappropriation relating to any such subject matter, applications, patents, and/or technology; in, to, and under the right to enforce any rights and file any causes of action, in law and/or equity, relating to any such subject matter, applications, patents, and/or technology; and in, to, and under the right to all income, royalties, fees, damages, and payments now or hereafter due or payable with respect to any such subject matter, applications, patents, and/or technology. The right, title, and interest is to be held and enjoyed by Assignee and its successors and assigns as fully and exclusively as it would have been held and enjoyed by Assignor had this assignment not been made. I request the applicable official having authority to issue patents and/or corresponding rights to issue same on the subject matter of the said invention(s) to Assignee, its successors and assigns, and, if called upon by Assignee, its successors, assigns, or legal representatives, I agree to promptly sign any

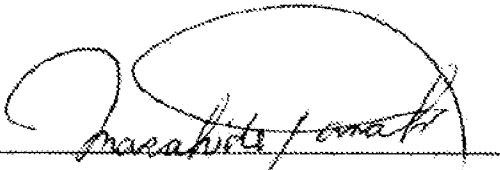

and all documents necessary to secure any and all such patents and/or rights and for issuance of same to Assignee or its successors and assigns.

I covenant with Assignee, its successors, assigns, and legal representatives that the interest and property hereby conveyed is free from all prior assignment, grant, mortgage, license, or other encumbrance.

I grant to Assignee, its successors, assigns, and legal representatives the power to insert on this assignment any further identification, including the application number and filing dates, that may be necessary or desirable in order to comply with the rules of the United States Patent and Trademark Office for recordation of this document.
