ASSIGNMENT

THIS ASSIGNMENT is made and entered into by and between Nelson E. Brestoff, ("ASSIGNOR"), and Intraspection, Inc., an entity existing under the laws of state of Delaware and having a place of business at 4109 Palo Alto Road, Sequim, WA 98382 ("ASSIGNEE")

WHEREAS, the ASSIGNOR conceived new and useful inventions described in the patent application entitled: "USING CLASSIFIED TEXT AND DEEP LEARNING ALGORITHMS TO IDENTIFY DRAFTING RISKS IN A DOCUMENT AND PROVIDE EARLY WARNING" (hereafter "Invention(s)") filed on 1/23/2017 with the United States Patent and Trademark Office and having a Serial No. of 15/413,309 ("Patent Application") resulting in Patent No. 9,754,206,

WHEREAS, the ASSIGNOR desires to transfer the entire right, title, and interest in the Invention(s), the Patent Application and all rights of priority resulting from the Patent Application to ASSIGNEE *nunc pro tunc* effective as of 1/23/2017 and ASSIGNEE is desirous of acquiring the entire right, title, and interest in and to the Invention(s), the Patent Application and all rights of priority resulting therefrom,

NOW THEREFORE, for consideration the adequacy and receipt of which is hereby acknowledged, and other good and valuable consideration, the ASSIGNOR hereby irrevocably sells, transfers, and assigns *nunc pro tunc* effective as of 1/23/2017 the full and exclusive right, title and interest in and to the Invention(s) and the Patent Application including any causes of action relating thereto and the right to collect damages recoverable thereon, the right to sue for infringement of any patents issuing therefrom and to collect damages including the right to sue for past infringement therefore, and all rights to continuing, continuations-in-part, divisional, improvement, substitute, renewal, reissue, re-examined and all other applications for letters patent which have been or shall be filed in the United States and all foreign countries on said Invention(s) or taking priority from the Patent Application or any other patent application describing the Invention(s); and all original, reissued or re-examined patents which have been or shall be issued in the United States and all foreign countries on said Invention(s); and in and to all rights of priority resulting from the filing of the Patent Application describing the Invention(s).

ASSIGNOR hereby authorizes and requests the Director of the U.S. Patent and Trademark Office and all foreign Patent Offices to issue patents for the subject matter assigned herein to ASSIGNEE for the sole and exclusive benefit of ASSIGNEE to the full end of the term for which said Patent may be granted as fully and entirely as the same would have been held by ASSIGNOR had this assignment and sale not been made,

In the event ASSIGNEE is unable, after reasonable effort, to secure ASSIGNOR's signatures on any documents relating to protection or maintenance of the Invention(s), the Patent Application or any other patent applications describing the Invention(s), whether because of ASSIGNOR's physical or mental incapacity or for any other reason, ASSIGNOR hereby irrevocably designates and appoints ASSIGNEE and its duly authorized officers and agents as their agent and attorney-in-fact, to act for and on their behalf to execute and file any patent application(s) and to do all other lawfully permitted acts to further the prosecution, issuance, and maintenance of the Invention(s) or improvements to the Invention(s) with the same legal force and effect as if personally executed by ASSIGNOR.

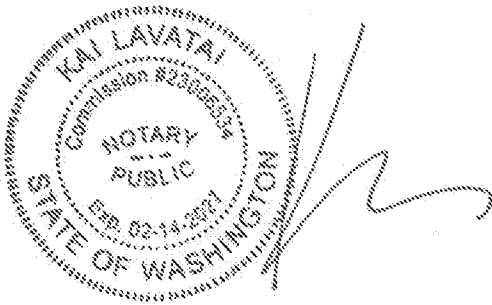

ASSIGNOR hereby covenants with ASSIGNEE, its successors, assigns and legal

representatives that no assignment, grant, mortgage, license or other agreement affecting the right to the Invention(s) or the Patent Application conveyed herein has been made to another by the undersigned and that the full right to convey as herein expressed is possessed by ASSIGNOR free and clear of all liens, pledges, charges and encumbrances. In cases where such information is missing ASSIGNOR grants ASSIGNEE and agents or representatives of ASSIGNEE the right to modify this document to indicate the filing date and serial number assigned to the Patent Application(s) this document relates to. This Assignment may be executed in counterparts, each of which shall be deemed an original.

Accepted and Agreed to by ASSIGNOR:

Signature: *Kai Lavatai*

Date: *12/22/2023*
