**ASSIGNMENT**

**WHEREAS**, on or about January 1, 2011, Cook Vascular Incorporated, an Indiana corporation, having an address of 1186 Montgomery Lane, Vandergrift, Pennsylvania 15690 (hereinafter "Vascular") assigned its entire right, title and interest in and to the patent family including US7468039B2 (the "Patent Family") to Cook Medical Technologies, LLC (hereinafter "Assignee") pursuant to the terms of a Contribution Agreement, dated January 1, 2011 (the "Contribution Agreement");

**WHEREAS**, on or about September 30, 2013, Vascular merged with and into Cook Incorporated (the "Merger"), with Cook Incorporated as the surviving corporation of the merger (hereinafter "Assignor"), resulting in all of the assets and liabilities of Vascular (including without limitation any residual right, title or interest of Vascular in and to the Patent Family that may not have been assigned pursuant to the Contribution Agreement) becoming assets and liabilities of Assignor by operation of law upon consummation of the Merger;

**WHEREAS**, in order to assure that all of the right, title and interest in and to the Patent Family has been assigned to Assignee and that Assignor does not retain any further right, title or interest in the Patent Family, Assignor desires to execute this Assignment and thereby assign to Assignee any residual right, title or interest in the Patent Family that may have remained with Vascular following the assignment made pursuant to the Contribution Agreement and obtained by Assignor through the Merger; and

**WHEREAS**, Assignee is desirous of acquiring the entire right, title and interest of Assignor, if any, in and to the Patent Family;

**NOW, THEREFORE**, for good and valuable consideration, the receipt for and sufficiency of which is hereby acknowledged, Assignor does hereby sell, assign, transfer and set over unto Assignee, its successors, and assigns, the entire right, title and interest in and to the Patent Family, including the right to claim priority under 35 U.S.C. §119 and the right to sue for past infringement, as set forth in the patents and patent applications constituting the Patent Family, including any continuations, continuations-in-part, divisions, reissues, re-examinations or extensions thereof, and in and to any and all patents of the United States and foreign countries which may be issued for said patents and patent applications;

**UPON SAID CONSIDERATION**, Assignor hereby agrees with Assignee that Assignor will not execute any writing or do any act whatsoever conflicting with these presents, and that Assignor will, at any time upon request, without further or additional consideration but at the expense of Assignee, execute such additional assignments and other writings and do such additional acts as Assignee may deem necessary or desirable to perfect Assignee's enjoyment of this Assignment, it being understood that the foregoing covenant and agreement shall bind, and inure to the benefit of the successors and assigns of Assignor and Assignee;

**AND** In testimony whereof, Assignor has signed below, by its duly authorized legal representative, effective this 27<sup>th</sup> day of October, 2023.
