CORRECTED WORLDWIDE PATENT ASSIGNMENT

THIS CORRECTED PATENT ASSIGNMENT (this “Assignment”), by **Backbone**, a corporation organized under and pursuant to the laws of France having a business address at 81 boulevard Pierre 1 er, Le Bouscat, France, 33110 (the “Assignor”);

WHEREAS, Assignor has invented certain new and useful improvements in implantable spinal devices, set forth in various national and international patent applications, as identified on Schedule 1 attached hereto (collectively, the “Assigned Patent Applications”);

WHEREAS, ~~**Companion Spine, LLC**, a Delaware limited liability company~~ having an address of 505 Park Avenue, 14th Floor, New York, New York 10022, United States **Companion Spine France**, a French company having an address at Immeuble Le Bridge – Etage 5, Allee de Acacias, 33 700 Merignac, France (the “Assignee”), is desirous of acquiring the entire right, title and interest in and to said inventions and said Assigned Patent Applications, and in and to any patents obtained or to be obtained therefor and thereon (collectively, the “Assigned Patents”), together the “Assigned Patent Applications and Patents”;

WHEREAS, upon the terms and subject to the conditions of the Investment Agreement dated as of October 21, 2022 (as amended, modified or supplemented from time to time, the “Investment Agreement”), Assignor agreed to sell, convey, assign and transfer the Assigned Patent Applications and Patents to Assignor, and Assignor agreed to purchase, acquire and accept the Assigned Patent Applications and Patents;

NOW, THEREFORE, in consideration of the amounts set forth in the Investment Agreement and other good and sufficient consideration, the receipt of which is hereby acknowledged, Assignor has sold, assigned, transferred and set over, and by these presents does sell, assign, transfer and set over, unto Assignee, its successors, legal representatives and assigns, the entire right, title and interest in and to the above-mentioned inventions and said Assigned Patent Applications and Patents, and in and to any and all direct and indirect divisions, continuations and continuations-in-part of said Assigned Patent Applications and Patents, , and reissues, reexaminations and extensions of said Assigned Patent Applications and Patents, and all rights under the International Convention for the Protection of Industrial Property, the same to be held and enjoyed by Assignee, for its own use and benefit and the use and benefit of its successors, legal representatives and assigns, to the full end of the term or terms for which Letters Patent may be granted and/or extended, as fully and entirely as the same would have been held and enjoyed by Assignor, had this sale and assignment not been made.

AND for the same consideration, Assignor hereby represents and warrants to Assignee, its successors, legal representatives and assigns, that, at the time of execution and delivery of these presents, except for any rights, titles and/or interests that have arisen to Assignee under law or that have already been transferred to Assignee, Assignor is the

sole and lawful owner of the entire right, title and interest in and to the said Assigned Patent Applications and Patents above-mentioned, and that the same are unencumbered and that Assignor has good and full right and lawful authority to sell and convey the same in the manner herein set forth.

AND for the same consideration, Assignor hereby covenants and agrees to and with Assignee, its successors, legal representatives and assigns, that Assignor will sign all papers and documents, take all lawful oaths and do all acts necessary or required to be done for the procurement, maintenance, enforcement and defense of any of the Assigned Patent Applications and Patents for said inventions, without charge to Assignee, its successors, legal representatives and assigns, whenever counsel of Assignee, or counsel of its successors, legal representatives and assigns, shall advise: that any proceeding in connection with said inventions, or said Assigned Patent Applications and Patents, or any proceeding in connection with any of the Assigned Patent Applications and Patents for said inventions in any country, including but not limited to interference proceedings, is lawful and desirable; or, that any division, continuation or continuation-in-part of any of the Assigned Patent Applications and Patents, or any reissue, reexamination or extension of any of the Assigned Patent Applications and Patents, to be obtained thereon, is lawful and desirable.

AND Assignor hereby requests the Commissioner for Patents and Trademarks, or any applicable governing body, to issue said Assigned Patents to Assignee, as Assignee of said inventions and the Assigned Patent Applications and Patents to be issued thereon, for the sole use and benefit of Assignee, its successors, legal representatives and assigns.

AND Assignor hereby grants the following individuals the power to insert on this Assignment any further identification which may be necessary or desirable in order to comply with the rules of the United States Patent and Trademark Office, or any applicable international office, for recordation of this document:
