ASSIGNMENT

The Assignment set forth below is by and between:

Rich Masel an individual living in **Boca Raton, Florida**, "the Assignee",

and

ALCHEMR, INC., a Florida Corporation having a place of business at **1100 Holland Drive, Boca Raton, FL 33487** "the Assignor".

In consideration of good and valuable considerations in hand paid, the receipt and sufficiency whereof are hereby acknowledged, the Assignor confirms having assigned and transferred on September 30, 2022, and to the extent necessary does hereby assign and transfer, to the Assignee, their successors and assigns, any rights it might have, including any right, title and interest, in the inventions and improvements disclosed in, and the granted patent(s) and patent application(s) listed in the "Schedule A Patents" and any and all other applications, both United States and foreign, which the Assignor may file, either solely or jointly with others, on said invention or improvements, and in any and all Letters Patent of the United States and foreign countries, which may be obtained on any of said applications, and in any provisional, non-provisional, continuation, continuation-in-part, divisional, reexamination, reissue or extension of such applications or patents, for all such subject matter described therein, including all rights of action and rights to recover damages for past infringements, and confirms having further assigned, and to the extent necessary does hereby further assign, to said Assignee the priority right provided by the International Convention.

The Assignor hereby authorizes and requests the Director of the U.S. Patent and Trademark Office and other Intellectual Property Offices to issue said Letters Patents to said Assignee.

The Assignor has warranted itself to have had, and to the extent necessary has, the right to make such assignment, and has further warranted, and to the extent necessary does hereby further warrant, that there are no other outstanding prior assignments, licenses, or other encumbrances on any rights they are assigning.

For said considerations the Assignor confirms its agreement, and to the extent necessary does hereby agree, upon the request and at the expense of said Assignee, their successors and assigns, to execute any and all non-provisional, continuation, continuation-in-part, divisional, extension, and substitute applications for said invention or improvements, and any necessary oath, affidavit or declaration relating

Page 1 of 5

thereto, and any application for the reissue, re-examination or extension of any Letters Patent that may be granted upon said application, and any and all applications and other document for Letters Patent in foreign countries on said invention or improvements, that said Assignee, their successors or assigns may deem necessary or expedient. The Assignor authorizes said Assignee to apply for patents for said invention or improvements in their own name in such countries where such procedure is proper, and has agreed, and to the extent necessary does hereby further agree, upon the request of said Assignee, their successors and assigns, to cooperate to the best of the ability of the undersigned with said Assignee, their successors and assigns, in any proceedings or transactions involving such applications or patents, including the preparation and execution of preliminary statements, giving and producing evidence, and to perform any and all other acts necessary to obtain said Letters Patent, both United States and foreign, and vest all rights therein conveyed in said Assignee, their successors and assigns, whereby said Letters Patent will be held and enjoyed by the said Assignee, their successors and assigns, to the full end of the term for which said Letters Patent will be granted, as fully and entirely as the same would have been held and enjoyed by the Assignor if such assignment had not been made.

Assignor agrees to promptly execute and deliver or to instruct its employees, both current and past, to so execute and deliver to Assignee or their legal representative any and all papers, instruments or affidavits that the Assignee may deem necessary or expedient to prepare, file, prosecute, obtain, issue, vest, maintain, defend and/or enforce the patent rights.

This Agreement may be executed in one or more counterparts, each of which shall be deemed an original, but all of which taken together shall constitute one and the same instrument.

Schedule A Patents

Title	Country	App. No./Patent No.	Filing Date
Water Electrolyzers Employing Anion Exchange Membranes	US	17/222,553 11,339,483	April 5, 2021
