## PATENT ASSIGNMENT AGREEMENT

This **Patent Assignment Agreement** (hereinafter referred to as the "Agreement") is made and entered into on **January 20, 2024** (the "Effective Date") by and between Green Air, Inc., a Virginia corporation having a principal place of business at 11250 Hopson Road, Suite B, Ashland, VA 23005 (the "Assignor"), and Evolve Air Systems LLC, a Limited Liability Company of Virginia having a principal place of business at 11250 Hopson Road, Suite C, Ashland, VA 23005 (the "Assignee").

WHEREAS, the Assignor is the sole and rightful owner of certain ideas, inventions, patent applications and/or patents therefor (collectively referred to as the Patents) set forth in Exhibit A attached hereto; and

WHEREAS, the Assignee desires to acquire the Assignor's right, title and interest in and to the Patents; and

WHEREAS, the Assignor is duly authorized and capable of entering into this Assignment.

NOW, THEREFORE, for valuable consideration, the receipt of which is acknowledged, the parties hereto agree as follows:

### 1. ASSIGNMENT.

Assignor hereby assigns to Assignee, and its successors, representatives and assigns, all right, title and interest in the Patents, including any and all foreign patent and applications, divisionals, continuations, substitutes, reexaminations, extensions, and reissues thereof. The right, title and interest conveyed in this Agreement is to be held and enjoyed by Assignee, and its successors, representatives and assigns, as fully and exclusively as would have been held and enjoyed by Assignor had this assignment not been made (including, without limitation, the right to sue and recover for any past or continuing infringements or contract breaches related to the Patents, the right to maintain the Patents, the right to apply for patents within or outside the United States based in whole or in part upon the Patents, and any priority right that may arise from the Patents).

Assignor hereby authorizes and requests the Commissioner of Patents of the United States Patent and Trademark Office and any other jurisdiction outside the United States to record this assignment of all right, title and interest in the Patents to Assignee, and its successors, representatives and assigns.

Assignor further agrees to upon the request and at the expense of Assignee: (a) cooperate with Assignee in the protection of the patent rights and prosecution and protection of foreign counterparts; (b) execute, verify, acknowledge and deliver all such further papers, including application applications and instruments of transfer; and (c) perform such other acts as Assignee lawfully may request to obtain or maintain the Patents and any and all applications for the Patents.

## **2. WARRANTY.**

Assignor warrants that Assignor is the legal owner of all right, title and interest in the Patents, that the Patents have not been previously pledged, assigned or encumbered, and that this Assignment does not infringe on the rights of any person.

## **3. GOVERNING LAW.**

This Agreement is governed by and is to be construed in accordance with the laws of the Commonwealth of Virginia.

## **4. ENTIRE AGREEMENT.**

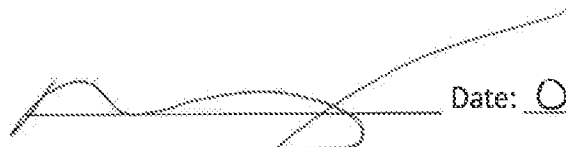

This Agreement constitutes the sole agreement of the parties and supersedes all oral negotiations and prior writings with respect to the subject matter hereof.

## **5. SEVERABILITY.**

If one or more provisions of this Agreement are held to be unenforceable under applicable law, the parties agree to renegotiate such provision in good faith. If the parties cannot reach a mutually agreeable and enforceable replacement for such provision, then (i) such provision will be excluded from this Assignment, (ii) the balance of the Agreement will be interpreted as if such provision were so excluded and (iii) the balance of the Agreement will be enforceable in accordance with its terms.

**IN WITNESS** whereof, the Assignor has executed this Agreement as of the Effective Date.

**Assignor:**

 Date: 01.20.24  
Nathaniel S. Roady, President, Green Air, Inc.
