**GRANT OF A SECURITY INTEREST -- PATENTS**

This Patent Security Agreement (this “**Patent Security Agreement**”) is made as of January 23, 2024, by the Grantors listed on the signature pages hereof (collectively, “**Grantor**”), in favor of DELAWARE TRUST COMPANY, in its capacity as administrative agent for itself and the other Secured Parties (together with its successors and assigns in such capacity, “**Grantee**”).

**WHEREAS**, the Grantor holds all right, title and interest in the letter patents, design patents and utility patents listed on the attached Schedule A, which patents are issued or applied for in the United States Patent and Trademark Office (the “**Patents**”);

**WHEREAS**, the Grantor, among others, has entered into an Amended and Restated Pledge and Security Agreement, dated January 23, 2024 (as amended, restated, supplemented, modified or otherwise changed from time to time, the “**Security Agreement**”), in favor of Grantee; and

**WHEREAS**, pursuant to the Security Agreement, the Grantor has granted to the Grantee for the benefit of the Secured Parties (as defined in the Security Agreement), a continuing security interest in all right, title and interest of the Grantor in, to and under the Patents and the applications and registrations thereof, and all proceeds thereof, including, without limitation, any and all causes of action which may exist by reason of infringement thereof and any and all damages arising from past, present and future violations thereof (the “**Collateral**”), to secure the payment, performance and observance of the Secured Obligations (as defined in the Security Agreement).

**NOW, THEREFORE**, as collateral security for the payment, performance and observance of all of the Secured Obligations, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Grantor does hereby grant to the Grantee and grant to the Grantee for the benefit of the Secured Parties, a continuing security interest in the Collateral to secure the prompt payment, performance and observance of the Secured Obligations. Notwithstanding anything herein to the contrary, the term “Collateral” shall not include, and no Grantor is pledging, nor granting a security interest hereunder in, any Excluded Assets; provided, however, that if and when any asset shall cease to be an Excluded Asset, a lien on and security interest in such property shall immediately be deemed granted hereunder.

All capitalized terms used but not otherwise defined herein have the meanings given to them in the Security Agreement.

The Grantor does hereby further acknowledge and affirm that the rights and remedies of the Grantee with respect to the Collateral are more fully set forth in the Security Agreement, the terms and provisions of which are hereby incorporated herein by reference as if fully set forth herein.

This Patent Security Agreement shall be governed by, and construed in accordance with, the laws of the State of New York.

This Patent Security Agreement may be executed in any number of counterparts and by different parties in separate counterparts, each of which when so executed shall be deemed to be an original and all of which taken together shall constitute one and the same agreement. Delivery

of an executed counterpart by facsimile or electronic mail shall be equally effective as delivery of an original executed counterpart.

*[Remainder of page intentionally left blank]*

**IN WITNESS WHEREOF**, the Grantors have caused this Patent Security Agreement to be duly executed by its officer thereunto duly authorized as of the date first set forth above.
