**DEED OF ASSIGNMENT**

ASSIGNMENT, made this 31st day of March, 2021 between Dispersive Networks, Inc., a Georgia corporation with its principal place of business at 2555 Westside Parkway, Suite 500, Alpharetta Georgia 30004 ("Assignor") and significant investors and debt holders in Georgia, and Asset Recovery Associates, LLC, a Georgia limited liability company with its principal place of business at 3155 Roswell Road NE, Atlanta, Georgia, 30305 ("Assignee").

WHEREAS, Assignor is engaged in the business of providing software solutions that enhance network security, reliability and performance.

WHEREAS, Assignor is indebted to creditors, as set forth in **Exhibit A** annexed hereto, is unable to pay its debts as they become due and is desirous of providing for the payment of its debts, so far as possible, by an assignment of all of its assets for that purpose.

NOW, THEREFORE, Assignor, in consideration of Assignee's acceptance of this assignment, and for other good and valuable consideration, hereby grants, assigns, conveys, transfers, and sets over unto Assignee, its successors and assigns, all of its assets, including, but not limited to, all corporate personal property, fixtures, goods, stock, inventory, equipment, furniture, furnishings, accounts receivable, bank deposits, cash, promissory notes, trade names, goodwill, contracts, its registered and unregistered intellectual property collateral (all of which shall collectively be called the "Intellectual Property"), including, without limitation, the following: (a) any and all copyright rights, copyright applications, copyright registrations and like protections in each work or authorship and derivative work thereof, whether published or unpublished, registered or unregistered, and whether or not the same also constitutes a trade secret, now or hereafter existing, created, acquired or held; (b) any and all trade secret rights, including any rights to unpatented inventions, know-how, operating manuals, license rights and agreements, and confidential information, and any and all intellectual property rights in computer software and computer software products now or hereafter existing, created, acquired or held; (c) any and all design rights which may be available to Grantor now or hereafter existing, created, acquired or held; (d) any and all trademarks and all goodwill associated therewith, including any and all common law trademark rights in the trademarks which exist in the United States, and (e) all patents, patent applications and like protections including, without limitation, improvements, divisions, continuations, renewals, reissues, extensions and continuations-in-part of the same; claims and demands belonging to Assignor, books, records, books of account, choses in action, judgments, liens, and mortgages held or owned by Assignor, wherever such assets may be located (hereinafter, the "Estate") as such assets are, to the best knowledge and belief of Assignor, set forth on **Exhibit B** annexed hereto.

Assignee shall take possession of and administer the Estate in accordance with the provisions of O.C.G.A. § 18-2-40, et seq., with reasonable dispatch, in order to liquidate and maximize the value of the assets of the Estate and convert the Estate into money, collect all claims and demands hereby assigned as may be collectible, and pay and discharge all reasonable attorneys' fees, expenses, costs, disbursements and indebtedness to lenders who have advanced funds to assignee in connection with the execution and administration of this assignment (hereinafter, the "Administrative Expenses") from the proceeds of such liquidations and collections.

Assignee shall then pay and discharge in full, to the extent that funds are available in the Estate after payment of the Administrative Expenses as set forth above, all of the debts and liabilities now due from Assignor, including interest on such debts and liabilities. If funds in the Estate are insufficient to pay all debts and liabilities in full, then proceeds shall be paid as follows according to the categories listed on **Exhibit A** attached hereto: (i) Assignee shall first pay to creditors with valid and perfected liens on valid security interests in the assets sold (the "Secured Creditors") (hereinafter, all such liens and security interests are referred to as "Liens") all proceeds of the sale of the assets to which such Liens attach in the order of priority established under applicable Georgia law; (ii) after payment in full of all creditors with Liens on the assets sold, Assignee shall pay any taxing authorities that do not have Liens on the assets sold (the "Taxing Authorities"); (iii) after payment in full of all Taxing Authorities, Assignee shall make payment of any unpaid wages incurred in the ninety (90) days prior to the date of the Assignment ("Allowed Wage Claims"); and (iv) after payment in full of Allowed Wage Claims, Assignee shall pay the remaining proceeds to general unsecured creditors (including any

creditors holding Liens that have deficiency claims after payment of the proceeds from the sale of assets to which such Liens attach) (the "Unsecured Creditors") on a pro rata basis.

In the event all debts and liabilities are paid in full, any funds in the Estate shall be returned to Assignor.

To accomplish the purposes of this assignment, Assignor hereby appoints Assignee as its true and lawful attorney, irrevocable, with full power and authority to do all acts and things that may be necessary to execute the assignment hereby created; to demand and recover from all persons all assets of the Estate; to sue for the recovery of such assets; to execute, acknowledge, and deliver all necessary deeds, instruments, and conveyances; and to appoint one or more attorneys to assist in carrying out Assignee's duties hereunder.

Assignor hereby authorizes Assignee to sign the name of Assignor to any check, draft, promissory note, or other instrument in writing that is payable to the order of Assignor, or to sign the name of Assignor to any instrument in writing, whenever it shall be necessary to carry out the purposes of this assignment. At and from time to time following the date hereof, Assignor shall, and shall cause its respective affiliates, directors, officers, personnel, independent contractors, agents, and other representatives to execute, deliver, file, and record any and all agreements, instruments, certificates, or other documents and take such other actions as may be reasonably necessary or desirable to effectuate the assignment and transfer to Assignee. Assignee shall have all rights and powers available under Georgia law, including O.C.G.A. § 18-2-54.

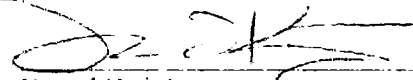

Assignee shall be authorized to pay at the closing of a sale all valid claims of creditors holding Liens against the assets sold, such creditors not constituting "preferred creditors" as contemplated by O.C.G.A. § 18-2-53.

In accordance with O.C.G.A. § 18-2-46, annexed hereto is an affidavit executed by Assignor stating that (i) this assignment conveys all property held, claimed, or owned by Assignor; (ii) all recitals and all estimates of totals and values herein and the list of creditors annexed hereto are true and correct to the best of Assignor's knowledge and belief; and (iii) this assignment was not made for the purpose of hindering, delaying, or defrauding creditors.
