ASSIGNMENT

WHEREAS, **ZOWDOW, INC.** ("Assignor"), having a principal place of business at 1375 E 6th St, Suite #2, Los Angeles, California 90021, has certain rights to the Patent Applications listed in *Schedule A*; and

WHEREAS, **STRONG FORCE TX PORTFOLIO 2018, LLC** ("Assignee"), having a principal place of business at 501 East Las Olas Blvd., Suite 200, Fort Lauderdale, Florida 33301, is desirous of acquiring the right, title and interest in, to and under said Patent Applications and the inventions covered thereby;

For good and valuable consideration, the receipt of which is acknowledged, Assignor sells, assigns, transfers, and sets over to Assignee or its heirs, successors, assigns, or other legal representatives the full and entire right, title, and interest in and to the inventions and patent applications listed in the attached *Schedule A*, including the right of Assignee or its heirs, successors, assigns, or other legal representatives to (1) file any and all divisional, continuation, and continuation-in-part applications claiming priority to the nonprovisional patent applications, and (2) seek reissues or extensions of any patent, which the Assignee may hold and enjoy as fully and entirely as Assignor would have had this assignment and sale not been made.

Assignor agrees that it or its heirs, successors, assigns, or other legal representatives will at any time on the request and at the expense of Assignee or its heirs, successors, assigns, or other legal representatives, without undue delay, execute and deliver any and all papers and do all lawful acts that may be necessary or desirable to perfect the title to the invention, the applications, and any patent or patents that may be obtained therefor.

Assignor further assigns to Assignee or its heirs, successors, assigns, or other legal representatives the whole right, title, and interest in and to the inventions throughout all countries foreign to the United States, including the right to (1) file any foreign patent applications claiming priority to the patent applications listed in *Schedule A* and to otherwise seek any patent in any foreign country; (2) file any divisional, continuation, and continuation-in-part applications claiming priority to the foreign patent application where such procedure is proper, and (3) seek reissues or extensions of any patent in any foreign country. Assignor ratifies any acts of Assignee in applying for a patent in Assignee's own name in any foreign country where such procedure is proper, agrees to execute foreign patent applications in the several countries where it is necessary that they be executed by the inventor, and agrees to execute assignments of foreign patent applications and any patent to be obtained therefor to Assignee.

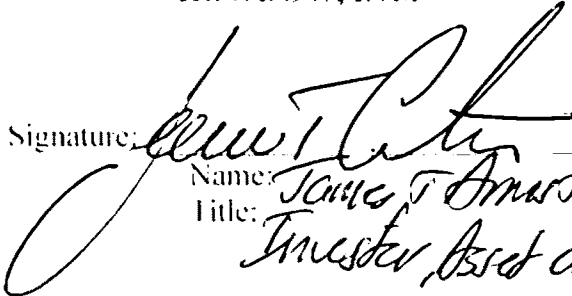

Assignor grants to Assignee the full right to sue for and recover all profits and damages recoverable for past infringement of the invention, the applications listed in *Schedule A*, and any patent or patents that may be obtained therefor, for Assignee's use and behalf, and for the use and behalf of Assignee's heirs, successors, assigns, and other legal representatives.

Assignor represents and warrants that Assignor has the full right to convey the entire interest of the invention and the applications listed in *Schedule A* and has not granted any right inconsistent with the rights granted in this Assignment.

Assignor authorizes and requests the Commissioner of Patents and Trademarks of the United States, and any official of any country foreign to the United States whose duty it is to issue patents, to issue any patent and any reissues and extensions thereof to Assignee in accordance with this Assignment.
