## **Patent Assignment Agreement for Recordation**

This Patent Assignment Agreement for Recordation (“Assignment”) is made as of March 20, 2024 (the “Effective Date”), by Alvaria Inc., a corporation registered under the laws of the State of Delaware, United States of America (“Assignor”), in favor of Alvaria Cayman (WEM), an exempted company incorporated under the laws of the Cayman Islands, having its registered office at 211 Perimeter Center Parkway NE, Suite 200, Atlanta, GA 30346 (“Assignee”).

WHEREAS, pursuant to the ALVARIA WEM IP Contribution Agreement executed by the parties on March 20, 2024 (the “Effective Date”), Assignor contributed, transferred, conveyed and assigned to Assignee various technology and intellectual property assets, including the patents and patent applications listed on Schedule 1 together with any patent (whether filed or issued as of or after the Effective Date) that directly or indirectly claims priority to patent or patent application set forth on Schedule 1 and any patent or patent application to which any such patent or patent application set forth on Schedule 1 claims priority (collectively, the “Assigned Patents”); and

WHEREAS, this Assignment is being executed to confirm and memorialize in writing the earlier transfer of all right, title and interest in and to the Assigned Patents.

NOW, THEREFORE, for good and valuable consideration, the receipt and adequacy of which is acknowledged, Assignor confirms having contributed, transferred, conveyed and assigned to Assignee, as of the Effective Date, all right, title and interest in and to the Assigned Patents for Assignee’s own use and enjoyment, and for the use and enjoyment of its successors, assigns or other legal representatives, as fully and entirely as the same would have been held and enjoyed by Assignor if such Assignment had not been made, including without limitation (i) any and all claims and causes of action, whether accruing before, on or after the Effective Date, and the right to seek remedies and damages for the past, present or future infringement, misappropriation, dilution, or other violation and (ii) all rights to proceeds, income, revenues and royalties, whether accruing on or after the Effective Date, in each case, resulting from, arising out of, or otherwise with respect to the Assigned Patents.

Assignor authorizes and requests that the United States Patent and Trademark Office and the corresponding entity or agency in any applicable foreign country record Assignee as the owner of the Assigned Patents and to issue any and all letters patent of the United States with respect thereto to Assignee, as assignee of the entire right, title and interest in, to and under the same, for the sole use and enjoyment of Assignee, its successors, assigns or other legal representatives.

Assignor shall take all further actions, and provide Assignee, Assignee’s successors, assigns or other legal representatives, all such cooperation and assistance (including, without limitation, the execution and delivery of any and all affidavits, declarations, oaths, exhibits, assignments, powers of attorney or other documentation), reasonably requested by Assignee to more fully and effectively effectuate the purposes of this Assignment.

This Assignment may be signed in counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument.

IN WITNESS WHEREOF, the Parties have executed this Assignment effective as of the Effective Date.
