ASSIGNMENT

WHEREAS, I, the undersigned joint inventor, have invented certain new and useful improvements described and claimed in International Patent Application No. PCT/IB2017/001270 filed on 8 September 2017 and in U.S. Provisional Patent Application Serial Nos. 62/385,776 filed September 9, 2016, and 62/452,406 filed January 31, 2017, which are titled "Polar Modifier Systems for High Vinyl Block Copolymerization."

WHEREAS, Dynasol Elastómeros, S.A. de C.V., a corporation of México (hereinafter referred to as "Assignee"), desires to acquire my entire right, title and interest in and to the invention throughout the world, and in and to the applications and any Patents that may issue thereon from any country;

NOW, THEREFORE, for and in consideration of One Dollar (\$1.00) and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, I assign to Assignee, all right, title and interest in and to my invention and in and to the applications and all patents in all countries throughout the world that may be granted therefor, and all divisions, reissues, continuations, continuations in part and extensions thereof; and I hereby authorize and request that any patent that is granted be issued, insofar as my interest is concerned, to Assignee. I further agree to execute any and all powers of attorney, applications, assignments, declarations, affidavits, and any other papers in connection therewith necessary to perfect such right, title and interest in Assignee. I will testify in any legal proceedings, sign all lawful papers, execute all divisional, continuation, continuation in part, reissue and substitute applications, make lawful oaths and declarations, and generally do everything possible to vest title in Assignee and to aid Assignee to obtain and enforce proper protection for said invention in all countries. This Assignment shall be binding on the parties' successors, assigns and legal representatives.
