## INVENTION ASSIGNMENT AND RESTRICTIVE COVENANTS AGREEMENT

This Invention Assignment and Restrictive Covenants Agreement (the "Agreement") is entered into by and between Alarm.com Incorporated ("Alarm.com") and Babak Rezvani ("Employee").

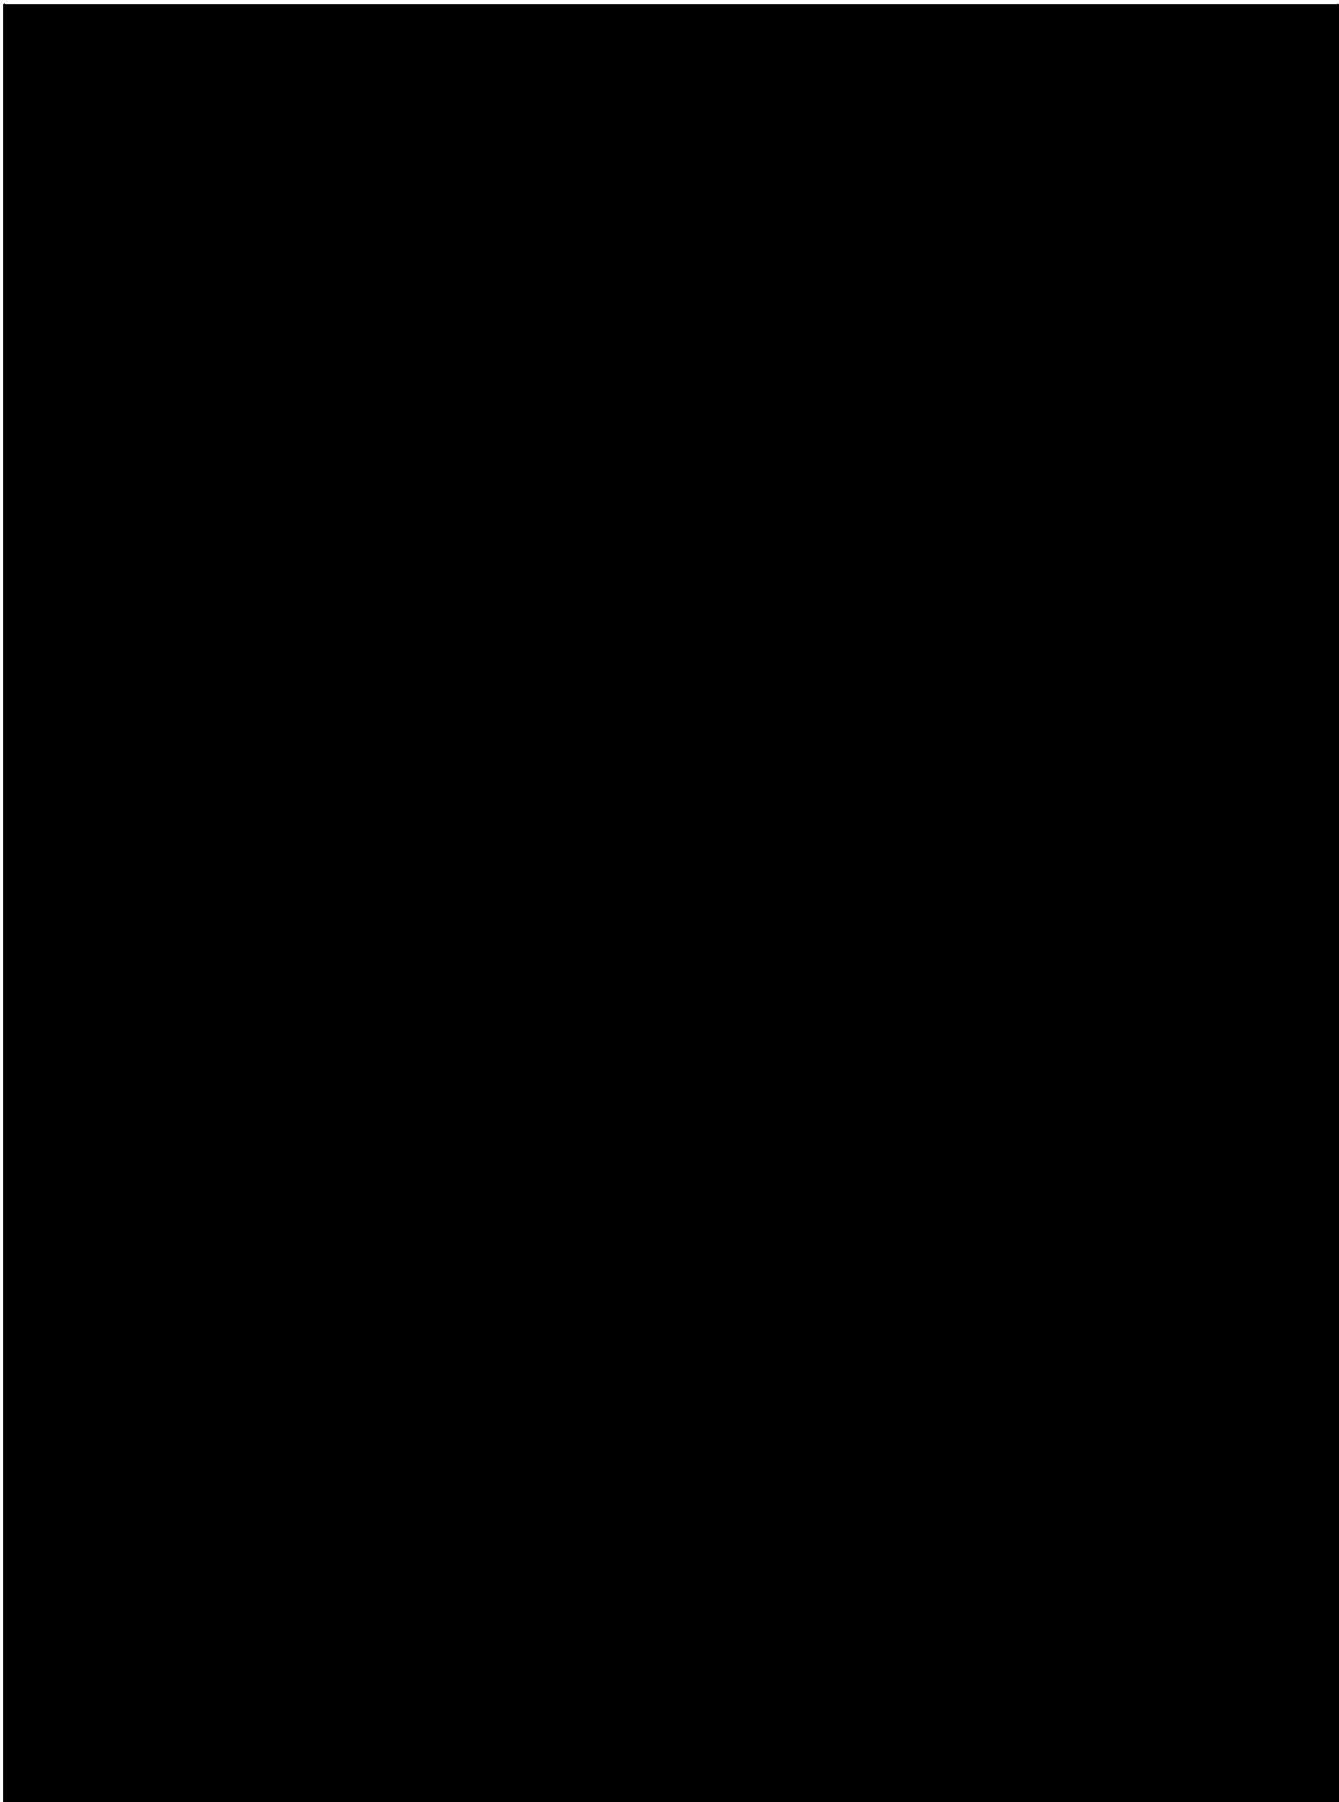

NOW, THEREFORE, in consideration of the premises and the mutual promises and covenants contained herein, and of other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the parties hereto, intending to be legally bound, agree as follows:

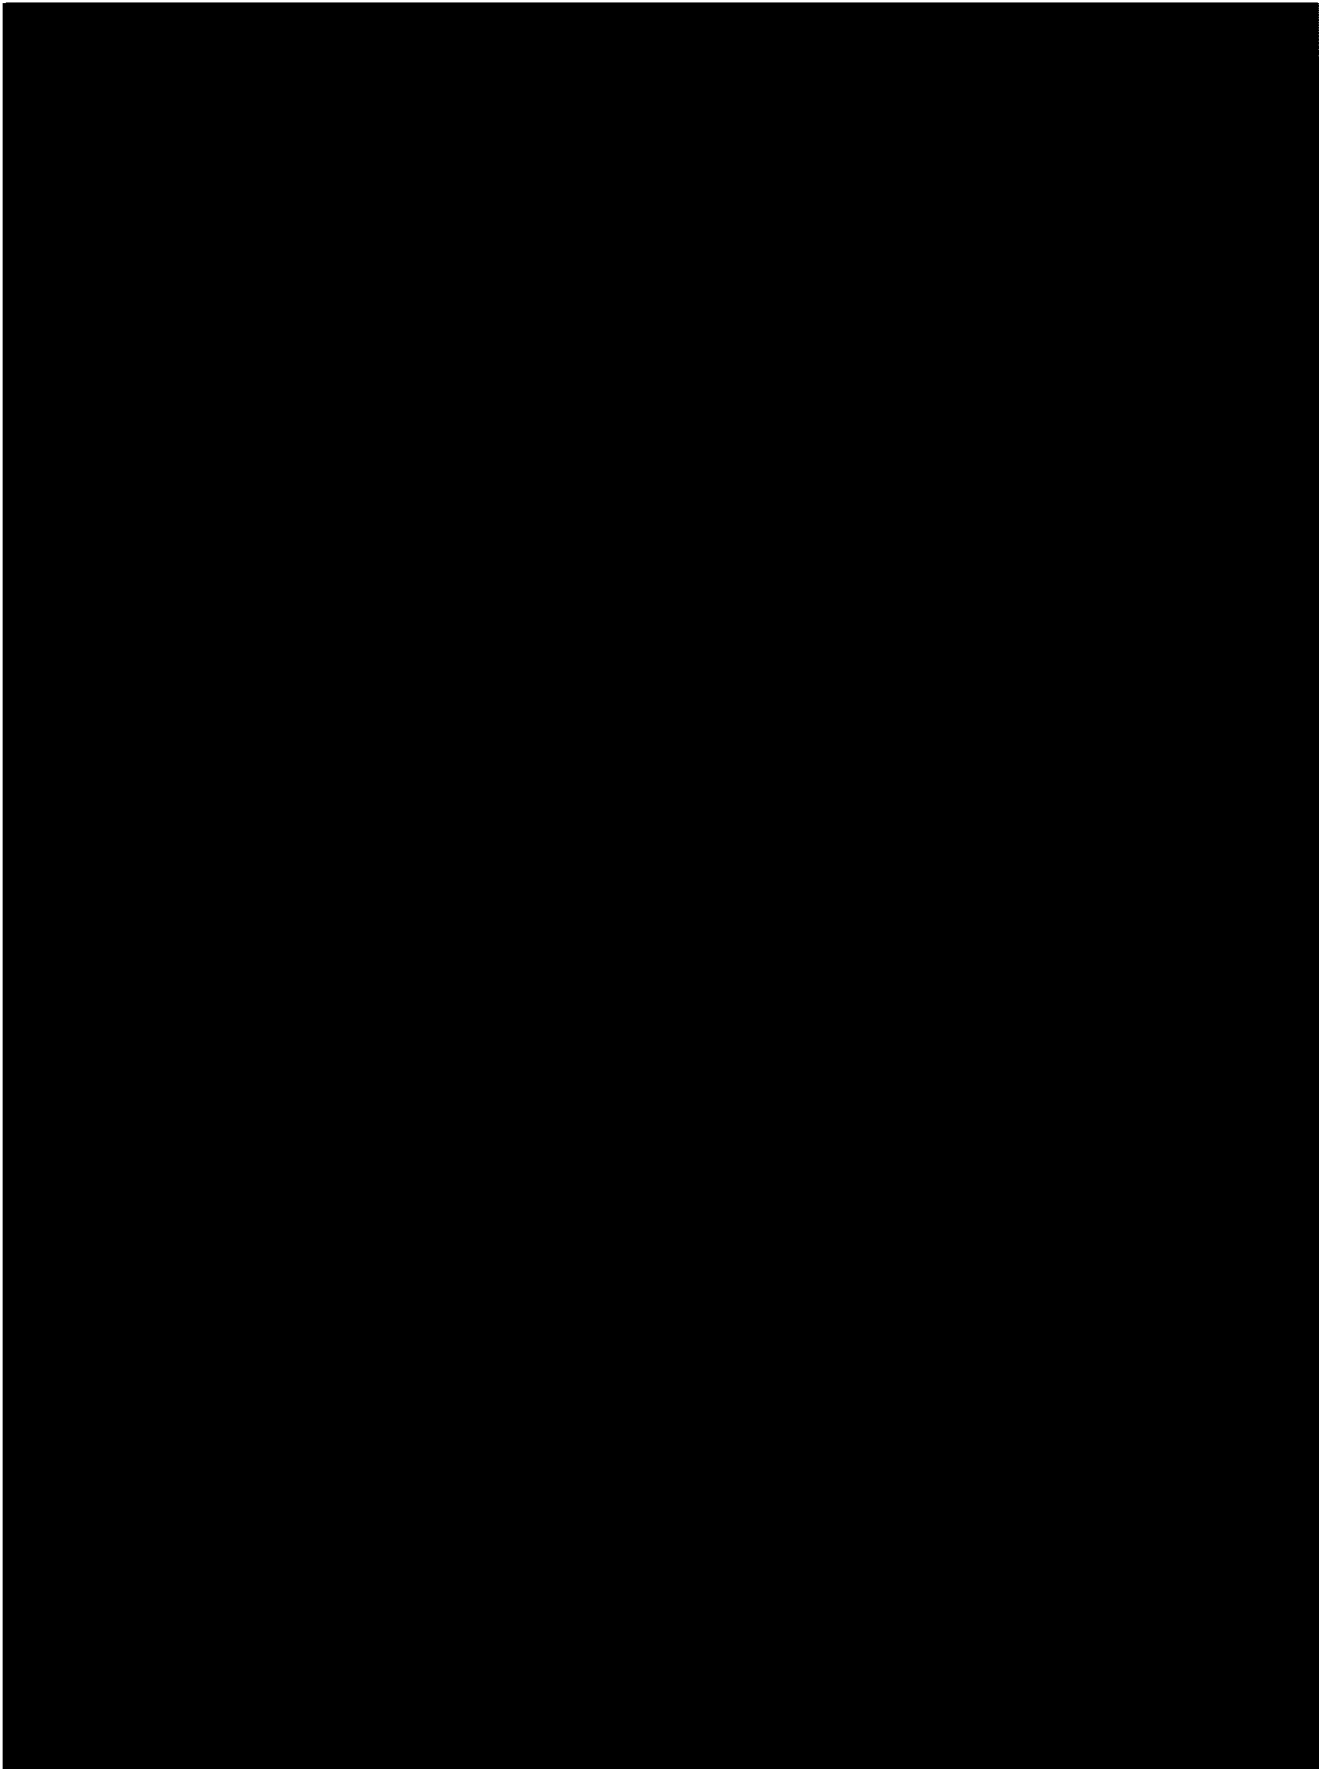

1. Assignment of Inventions. Employee will promptly make full written disclosure to Alarm.com, will hold in trust for the sole right and benefit of Alarm.com, and hereby assigns to Alarm.com, or its designee, his/her entire right, title, interest and priority rights in and to all inventions, discoveries, improvements, original works of authorship, developments, concepts, designs, ideas, trademarks, patents, copyrights or trade secrets, whether or not patentable or subject to registration under copyright or similar laws, which Employee may solely or jointly conceive or develop or reduce to practice, or cause to be conceived or developed or reduced to practice, during the term of his/her employment with Alarm.com ("Inventions"), except as provided in Section 1(a) below. Employee further acknowledges that all original works of authorship which are made by him/her (solely or jointly with others) within the scope of and during the term of his/her employment with Alarm.com and which are protectable by copyright are "works made for hire," as that term is defined in the United States Copyright Act, 17 U.S.C. § 501 et seq. Employee understands and agrees that the decision whether or not to commercialize or market any Invention developed by Employee solely or jointly with others is within Alarm.com's sole discretion and for Alarm.com's sole benefit and that no royalty will be due to Employee as a result of Alarm.com's efforts to commercialize or market any such Invention.
