I, **Michael Solomon**, have invented new and useful improvements in **EDGE UNITS DEVICE AND METHODS** for which I have executed United States Utility: Continuation-in-Part Patent Application Serial No. **17/935,909**, filed September 27, 2022, Attorney Docket No. 1065; and

I believe that I am an original, first, or joint inventor of the invention disclosed and claimed in that patent application; and

Erthos IP LLC desires the entire title to the invention, every patent application, and every patent that may issue for the invention in the United States and throughout the world (World-Wide Patent Rights);

I assign, or acknowledge that I have previously assigned, to Erthos IP LLC, my title to the World-Wide Patent Rights. These rights include filing foreign applications directly in the name of Erthos IP LLC and claiming any priority rights those applications are entitled to.

Upon request and without further compensation, but at no expense to myself, my legal representatives or I will do all lawful acts that Erthos IP LLC deems necessary or desirable for perfecting these World-Wide Patent Rights.

I have not granted and will not grant any rights inconsistent with the rights I have granted in this Assignment.

I authorize and request the Commissioner of Patents and Trademarks of the United States and all foreign countries to issue any patents granted for these World-Wide Patent Rights to Erthos IP LLC, or its successors, as the assignee of the entire interest in the invention.
