GENERAL ASSIGNMENT

WHEREAS, Janssen BioPharma, LLC (formally Janssen BioPharma, Inc). having a place of business at 260 East Grand Avenue, 2nd Fl., South San Francisco, CA 94080, (hereinafter referred to as "Assignor"), is the owner of certain patents and patent applications listed in the table attached hereto (together with any and all provisional applications, non-provisional applications, international (PCT) applications, continuations, continuations-in-part, substitutions, divisionals, reexaminations, additions, modifications and foreign counterparts that are or may be granted or generated for any of the foregoing, the "Patents").

WHEREAS, Janssen Pharmaceutica NV, having its place of business at Turnhoutseweg 30, 2340 Beerse, Belgium (hereinafter referred to as "Assignee") is desirous of acquiring Assignor's entire right, title and interest therein, including the right to claim priority thereof,

NOW, THEREFORE, BE IT KNOWN, that in view of good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Assignor hereby conveys, delivers, transfers and assigns, and hereby causes its Affiliates to convey, deliver, transfer, and assign, for any and all countries throughout the world, to the Assignee its and their entire right, title and interest, free and clear of all Liens and including the right to claim priority, in and to the Patents, and in and to all extensions, renewals, and reissues thereof, the same to be held and enjoyed by the Assignee, its successors and assigns, as fully and entirely as the same would have been held and enjoyed by the Assignor or its Affiliates if this Patent Assignment Agreement had not been made and including, without limitation, any claim by the Assignor against third parties for infringement or other violation of the Patents, royalties, damages or payments due or payable, and the exclusive right to grant licenses or other interests therein

And for purpose of obtaining patent protection in any foreign country, the Assignor hereby agrees that, any right, title and interest, in and to all said inventions disclosed in said applications and in and to said applications, and all foreign equivalents thereof can be directly assigned by the inventors to the Assignee

This Patent Assignment Agreement may be executed in one or more counterparts, each and every one of which shall be deemed an original and shall become effective when one or more counterparts have been signed by each of the parties hereto and delivered to the other party hereto, notwithstanding variations in format or file designation which may result from the electronic transmission, storage and printing of copies of this Patent Assignment Agreement from separate computers or printers. Facsimile signatures and signatures transmitted electronically shall be treated as original signatures.

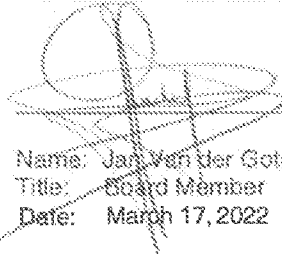

IN TESTIMONY WHEREOF, the Assignor and Assignee set hereunto their hand and seal this date.
