Patent Assignment

This PATENT ASSIGNMENT (this "Patent Assignment"), dated as of April 19, 2024 (the "Effective Date"), is made by and between Enthermics Medical Systems, Inc., a Wisconsin corporation ("Assignor"), and Pedigo Products, Inc., a Washington corporation ("Buyer").

WHEREAS, Assignor is the owner of the patents and patent applications described on Schedule 1 hereto (the "Patents"); and

WHEREAS, pursuant to the terms of that certain Asset Purchase Agreement, dated as of March 18, 2024, between Assignor and Buyer, among others, as amended by that certain Amendment No. 1 to the Asset Purchase Agreement, dated April 3, 2024 (as amended, the "Purchase Agreement"), Assignor has agreed to assign to Buyer all of Assignor's right, title, and interest in and to the Patents.

NOW THEREFORE, for the consideration set forth in the Purchase Agreement and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, as of the Effective Date, Assignor hereby sells, transfers, and assigns to Buyer, its successors and assigns, Assignor's entire right, title, and interest in the Patents, including all reissues, divisions, reexaminations, renewals, extensions, provisionals, substitutions, continuations and continuations-in-part thereof, and all equivalent or similar rights anywhere in the world in inventions and discoveries disclosed in such Patents therefor, including the right to claim priority rights deriving from the Patents by virtue of international convention, treaty, or otherwise, together with all causes of action (whether known or unknown or whether currently pending, filed, or otherwise) and other enforcement rights with respect to the Patents, including causes of action and other enforcement rights for (a) damages, (b) injunctive relief, and (c) any other remedies of any kind, for past, current, and future infringement of any such Patents, including royalties and other payments. The Patents to be held and enjoyed by Buyer and its successors and assigns for their use and benefit and of their successors and assigns as fully and entirely as the same would have been held and enjoyed by Assignor had this assignment, transfer, and sale not been made

Assignor hereby authorizes the respective patent office or governmental agency in each applicable jurisdiction to issue any and all patents, certificates of invention or other similar governmental grants or issuances that may be granted for any of the Patents in the name of Buyer, as the assignee.

All matters relating to or arising out of this Patent Assignment or the transactions contemplated hereby and the rights of the parties hereunder (whether sounding in contract, tort or otherwise) shall be governed by, and construed and enforced in accordance with, the internal law, and not the law pertaining to conflicts or choice of law, of the State of Delaware.

This Patent Assignment shall inure to the benefit of and be binding upon Buyer and Assignor and their respective successors and assigns. This Patent Assignment may be executed in counterparts, each of which shall be deemed an original, but all of which shall constitute one and the same instrument. A manual signature on this Patent Assignment, an image of which shall have been transmitted electronically, will constitute an original signature for all purposes. The delivery of copies of this Patent Assignment, including executed signature pages where required, by electronic transmission will constitute effective delivery of this Patent Assignment for all purposes.
