(the "Assignee")

WHEREAS, the Assignor is the sole and rightful owner of certain ideas, inventions, patent applications therefor and patents thereon (collectively referred to as the "Patents") set forth in the table below:

NOW, THEREFORE, for valuable consideration, the receipt of which is acknowledged, the parties hereto agree as follows:

**1. ASSIGNMENT.**

The Assignor does hereby assign, transfer and set over to Assignee 100% of its right, title, and interest in the Patents to Assignee for the entire term of the Patents

and any reissues or extensions and for the entire terms of any patents, reissues or extensions that may issue from foreign applications, divisions, continuations in whole or part or substitute applications filed claiming the benefit of the Patents. The right, title, and interest conveyed in this Assignment is to be held and enjoyed by Assignee and Assignee's successors as fully and exclusively as it would have been held and enjoyed by Assignor had this assignment not been made.

Assignor further agrees to: (a) cooperate with Assignee in the protection of the patent rights and prosecution and protection of foreign counterparts; (b) execute, verify, acknowledge and deliver all such further papers, including patent applications and instruments of transfer; and (c) perform such other acts as Assignee lawfully may request to obtain or maintain the Patents and any and all applications and registrations for the invention in any and all countries.

## **2. WARRANTY.**

Assignor warrants that Assignor is the legal owner of all right, title, and interest in the Patents, that the Patents have not been previously pledged, assigned, or encumbered, and that this Assignment does not infringe on the rights of any person.

If the parties cannot reach a mutually agreeable and enforceable replacement for such provision, then (i) such provision will be excluded from this Assignment, (ii) the
