these being referred to hereinafter collectively as the "APPLICATIONS," which APPLICATIONS and inventions described in the APPLICATIONS, together with any applications to which the APPLICATIONS claim priority, related experimental data, trade secret, and other know-how, are referred to hereinafter as the INVENTIONS;

WHEREAS, ASSIGNEE, is desirous of obtaining the entire right, title and interest, or if already obtained, confirming its entire right, title and interest in, to and under said INVENTIONS, and in, to and under Letters Patent or similar legal protection to be, or having been, obtained therefor in the United States of America, its territorial possessions and in any and all countries foreign thereto;

NOW, THEREFORE, for good and valuable consideration, the receipt of which is hereby acknowledged, ASSIGNOR has assigned, transferred and set over and, to the extent not already performed, hereby now assigns, transfers and sets over unto the ASSIGNEE, its successors and assigns, ASSIGNORS' entire right, title and interest in and to the INVENTIONS and in the APPLICATIONS based thereon, and to all Letters Patent or similar legal protection arising therefrom, not only in the United States and its territorial possessions but also in all countries foreign thereto, to be and that have been obtained for said INVENTIONS by said APPLICATIONS or any application that claims priority or benefit to or from the APPLICATIONS, including, without limitation, any regular utility application, continuation, continuation-in-part, divisional, renewal, substitute, reissue or reexamination thereof or any legal equivalent of any of the foregoing in a foreign country, including any application for industrial property protection, utility model, inventor certificate or designs (the foregoing domestic and foreign applications, patents and other intellectual property rights collectively referred to herein as the "INVENTION FAMILY"), for the full term or terms for which the same may be granted;

ASSIGNOR further assigns to ASSIGNEE all rights to claim priority to the APPLICATIONS (including any applications to which the APPLICATIONS claim priority), including such rights under any International Convention, including the Paris Convention for the Protection of Industrial Property and all rights to granted patents arising from the APPLICATIONS in any Paris Convention Treaty contracting state;

ASSIGNOR acknowledges that ASSIGNEE may appoint any attorney or practitioner of ASSIGNEE'S choice to prosecute any application, pay maintenance fees or annuities, or participate in any legal proceeding involving said INVENTION FAMILY.

ASSIGNOR hereby acknowledges that ASSIGNEE owns all right, title, interest and standing of ASSIGNOR in and to the INVENTION FAMILY, and grants to ASSIGNEE the right to institute

and prosecute all suits and proceedings and take all actions to collect, assert or enforce any claim, right or title of any kind in and to the INVENTION FAMILY, including the right to sue for and collect damages for infringement, including past infringement, of any member of the INVENTION FAMILY.
