PATENT ASSIGNMENT AGREEMENT

This PATENT ASSIGNMENT AGREEMENT ("**Assignment**") is made by Riley Davis Robbins, of Beckley, West Virginia (the "**Inventor**") regarding a patent and a patent application, each titled SYSTEMS AND METHODS FOR RECOVERING SALTS, ALUMINUM, ALUMINA, AND AMMONIA FROM SALT SLAG WASTE GENERATED IN ALUMINUM RECYCLING.

WHEREAS, the Inventor has invented one or more inventions disclosed and/or claimed in the following patent and patent application (the "**Inventions**"):

- U.S. Patent No. 11,834,343, Issued December 5, 2023 (the "**Patent**"); and
- U.S. Patent Application No. 18/511,056, filed November 16, 2023.

WHEREAS, Evergreen Alumina, LLC, a West Virginia limited liability company with an address at 104 Hale Street, Beckley, West Virginia, 25801 (the "**Assignee**"), together with its successors and assigns, desires to acquire the entire right, title and interest in and to the Inventions, the Patent and the Applications (as defined herein).

NOW, THEREFORE, the parties agree as follows:

1. For valuable consideration from the Assignee to the Inventor, the receipt and adequacy of which are hereby acknowledged, the Inventor hereby conveys, transfers and assigns to the Assignee, its lawful successors and assigns, the entire and exclusive right, title, and interest in and to the Inventions, the aforereferenced patent and application, and all other patents and claims that may be granted therefor in the United States and all other countries, territories, and jurisdictions in the world (collectively, the "**Countries**"), and to all existing or future related applications, divisions, substitutes, renewals, reissues, continuing applications, conversions, re-examinations, extensions, and any resulting patents thereof in all Countries (collectively, with the aforereferenced patent and application, the "**Applications**") for the full terms for which the same may be granted and any rights associated therewith, including, but not limited to, any and all royalties, profits, damages, fees, income, payments, and other proceeds now or hereafter due or payable, and to the right to claim benefit and priority from the Patent and the Applications in all of the Countries.

2. The Inventor represents and warrants that he has the ability to convey all rights and interests herein assigned, that there are no rights or interests outstanding inconsistent with the rights and interests granted herein, and that he will not execute any instrument or grant or transfer any rights or interests inconsistent with the rights and interests granted herein.

3. The Inventor authorizes the Assignee to file for and request that the USPTO and corresponding bodies in each of the other Countries issue any and all patents resulting from any of the Applications to the Assignee.

4. This Assignment inures to the benefit of the Assignee and its successors, assigns, and other legal representatives, and is binding on the Inventor and his heirs, legal representatives, and assigns.

5. The Inventor shall take such steps and actions, and provide such cooperation and assistance to the Assignee and its successors, assigns, and legal representatives, in connection with the Inventions, the Patent and the Applications, or for any inventions and discoveries derived therefrom, as may be necessary to effect, evidence, or perfect the Assignment to the Assignee or any assignee or successor thereto, including, but not limited to: the execution and delivery of any affidavits, declarations, oaths, exhibits, assignments, powers of attorney, documents in connection with claims or provisions of the International Convention for the Protection of Industrial Property or similar treaties and agreements, or other lawful papers; the execution and delivery of all papers necessary in connection with any

administrative or judicial proceedings; and the provision of information and testimony and cooperation in every way in obtaining and producing evidence and prosecuting such proceedings.

IN WITNESS WHEREOF, the Inventor has executed this Assignment on the date indicated below:
