- (1) the entire right, title and interest for the United States and in all countries, in and to any and all patents, inventions, discoveries, and patent applications listed in Appendix A attached hereto, including any and all patents and/or patent applications claiming benefit thereof, and/or any renewals, revivals, reissues, reexaminations, extensions, provisionals, continuations and divisions of such patents and applications, and any substitute applications therefor, and including the exclusive right to enforce the same and to sue for and recover all damages for past, present, and future infringement of the same; and

I further agree at any time to execute and to deliver upon request of the ASSIGNEE such additional documents, if any, as are necessary or desirable to secure patent protection on said inventions, discoveries and applications throughout all countries of the world, and otherwise to do the necessary to give full effect to and to perfect the rights of the ASSIGNEE under this Assignment, including the execution, delivery and procurement of any and all further documents evidencing this assignment, transfer and sale as may be necessary or desirable.
