COMPANY TO COMPANY ASSIGNMENT

Title of	System And Method Enabling Real-Time Communication Rating By Predefined Conditions Connected With Rating Summary Agent Application Display And The Automated Sending
-----------------	--

THIS ASSIGNMENT is directed to United States Patent Application: **serial no.: 16/699,227; filed on 11/29/2019; granted on 08/09/2022;** under **patent number 11411896;** with inventor(s): **Krzysztof Górski** (the "Assigned Intellectual Property").

THIS ASSIGNMENT is made as of the 22 day of August, 2024, between LIVECHAT SOFTWARE S.A. having its principal place of business at: ul. Zwycieska 47, Wrocław, Poland 53-033, (the "Assignor") and TEXT SPÓŁKA AKCYJNA having its principal place of business at ul. Zwycieska 47, Wrocław, Poland 53-033 (the "Company" or "Assignee").

A. The Assignor was the owner of or held proprietary rights in relation to intellectual property identified in this Assignment (the "Intellectual Property"), which Intellectual Property was developed in contemplation of it being used, either directly or indirectly, in its respective industry.

B. Assignor represents and warrants to the Company that (a) it is not under any pre-existing obligation inconsistent with the terms of this instrument; (b) to the best of its knowledge, the Intellectual Property is its original work, free and clear of any claims or encumbrances of any kind, and, to the best of its knowledge, will not infringe any patent, copyright or other proprietary right or violate a trade secret of any person or entity; (c) its delivery of this instrument has not and will not violate or conflict with or result in a breach of any terms, conditions, duties or obligations it has to any third party; and (d) it has not authorized any third party to use, or granted any option to acquire any rights to or licenses to use any of the Intellectual Property, nor has it covenanted or agreed with any third party not to sue or otherwise enforce any legal rights with respect to any of the Intellectual Property. The representations and warranties of this paragraph B shall survive the date of this instrument.

C. The Company has agreed that the assignment of all Intellectual Property referred to above (the "Assigned Intellectual Property") which was held or owned, in any form or manner whatsoever, by the Assignor is intended at all material times by the parties to be assigned by the Assignor to the Company.

NOW THEREFORE, in consideration of the sum of One Dollar and other good and valuable consideration, the receipt and adequacy of which is hereby acknowledged, the Company and the Assignor hereby agree that:

1. The Assignor acknowledges that it will benefit from this assignment of the Assigned Intellectual Property.
2. The Assignor hereby sells, assigns and transfers unto the Company, all of his right, title and interest, in and to the Assigned Intellectual Property created or owned in any form or manner whatsoever, specifically, the invention as defined in the Assigned Intellectual Property. To the extent that any such Assigned Intellectual Property is not assignable or transferable to the Company ("Non-assignable IP"), the Assignor hereby grants to the Company a non-exclusive, royalty-free, irrevocable, perpetual, world-wide license to make, have made, modify, manufacture, reproduce, sub-license, use and sell such Non-assignable IP, and any residual rights the Assignor holds in the Non-assignable IP will be held by him in trust for the sole benefit of the Company. The Assignor will convey, transfer, dispose of and otherwise deal with the Non-assignable IP (including the execution and delivery of all documents and other instruments relating to the Non-assignable IP) in such a manner as the Company shall from time to time direct.

IN WITNESS WHEREOF the parties have executed this Agreement as of the date first mentioned above.

The above-identified application was made or authorized to be made by me.

I believe that I am the original inventor of a claimed invention of the application.
