## ASSIGNMENT

Pursuant to our obligation to the **University of Notre Dame du Lac** (hereinafter referred to as "Assignee"), having its principal place of business at:

Notre Dame IDEA Center  
1400 E. Angela Blvd  
South Bend, IN 46617  
USA

and for other valuable and sufficient consideration, receipt whereof is hereby acknowledged, we:

**Justin Crepp**  
51032 Windridge Ct  
Granger, IN 46530  
USA

confirm our obligation to and hereby sell, assign and convey, unto Assignee, its successors and assigns, our entire right, title and interest -

(1) in and to inventions described in a patent application titled "Multi-Plane Diffractive Wave Front Sensor" which was filed as United States Provisional Patent Application No. 62/876,157 on July 19, 2019 (hereinafter "U.S. provisional patent application");

(2) in and to the U.S. provisional patent application, in and to all other patent applications (including non-provisional, divisional, continuation, continuation-in-part, and reissue applications) based upon said inventions, and in and to the patent or patents to be granted thereon, to the full end of the term or terms for which said patent or patents may be granted;

(3) in and to all patent applications on said invention now or hereafter filed in countries foreign to the United States of America, and in and to any and all patents granted on said applications to the full end of the terms for which said patents may be granted; and

(4) under the International Convention in respect to the U.S. provisional patent application and agree that any patent applications of any foreign countries which may be filed shall be filed in the name of our Assignee with a claim to priority based on the U.S. provisional patent application.

We hereby agree that we will, upon demand of Assignee, its successors or assigns, and without further consideration to us, execute any and all papers that may be necessary, or deemed by Assignee, its successors or assigns, to be necessary, to a complete fulfillment of the intent and purposes of this Assignment, it being understood that any expense incident to the execution of such papers shall be paid by Assignee, its successors and assigns, and not by us.

The Commissioner of Patents and Trademarks of the United States is hereby authorized and requested to issue said patent.
