ASSIGNMENT

This assignment is made and entered into as of the date of the last signature below ("Effective Date"), by and between Jack McCallum, Scott Roloff, William McCallum, and Ken Grifno ("Assignors"), and Integer Health Technologies, LLC, a Delaware limited liability company located at 9001 Airport Freeway, Suite 830, Fort Worth, Texas 76180 ("Assignee").

WHEREAS, Jack McCallum, Scott Roloff, and William McCallum are the inventors of the invention(s) described in United States Patent Application No. 62/387,534 entitled "A Self-Insured Employers And Claims Owners Outcomes Based Medical Software System And Method With Health Assessment Metric Based On Risk Coding," and Assignors are the inventors of the invention(s) described in the United States Patent Application No. 15/225,503 entitled "Machine Learning System for Creating and Utilizing an Assessment Metric Based on Outcomes" (the "Patent Applications"); and

WHEREAS, Assignee desires to acquire and Assignors desire to assign all right, title, and interest in and to the Patent Applications.

NOW, THEREFORE, for the sum of One Dollar and other good and valuable consideration, the receipt of which is hereby acknowledged, Assignors hereby assign, transfer and set over, unto Assignee, its successors, legal representatives and assigns, the entire right, title and interest in and to the Patent Applications and all continuations, divisions and renewals thereof, and all Patents of the United States which may be granted thereon and all reissues and extensions thereof, and all applications for intellectual property protection, including, without limitation, all applications for patents, utility models and designs which may hereafter be filed for said invention(s) in any country or countries foreign to the United States, together with the right to file such applications and the right to claim for the same the priority rights derived from

said Patent Applications under the laws of the United States of America, the Paris Convention for the Protection of Industrial Property, or any other international agreement or the domestic laws of the country in which any such application is filed, as may be applicable; and all forms of intellectual property protection, including, without limitation, patents, utility models, inventors' certificates and designs which may be granted for said invention(s) in any country or countries foreign to the United States of America and all extensions, renewals and reissues thereof.

Assignors authorize and request the Commissioner for Patents to record Assignee as the owner of the Patent Applications, including any continuations, divisions, continuations-in-part, reissues, reexaminations or extensions thereof, and to issue any and all letters patents of the United States thereon to Assignee, as assignee of the entire right, title and interest in and to the same, for the sole use and enjoyment of Assignee, its heirs, successors, assigns or other legal representatives.

Assignors hereby represent and warrant that Assignors' right, title and interest in and to the Patent Applications are free and clear of any liens or encumbrances, that Assignors have the full right to assign all of Assignors' interest therein, and that Assignors have not executed and will not execute any agreement or other instrument in conflict herewith.

Assignors grant to Assignee the full right to sue for and recover all profits and damages recoverable for past infringement of the invention(s), the Patent Applications, and any patent or patents that may be obtained therefor, for Assignee's use and behalf, and for the use and behalf of Assignee's heirs, successors, assigns and other legal representatives.

Assignors and Assignee shall use their respective commercially reasonable efforts to take, or cause to be taken, all action, and to do, or cause to be done, all things necessary, proper, or advisable under the applicable laws and regulations to consummate and make effective the

assignment contemplated by this Assignment. If at any time after the Effective Date any further action is necessary or desirable to carry out the purposes of this Assignment, the parties hereto shall take or cause to be taken all such necessary action, including, without limitation, the execution and delivery of such further instruments and documents as may be reasonably requested by the other party for such purposes or otherwise to consummate and make effective this Assignment.
