## **PATENT ASSIGNMENT**

This PATENT ASSIGNMENT (this “Assignment”), dated as of October 15, 2024, is entered into by and between Jackrabbit, a California corporation (“Jackrabbit CA”), and JR OpCo, LLC, a Delaware limited liability company and wholly owned subsidiary of Jackrabbit CA (“OpCo”).

### **RECITALS**

WHEREAS, prior to the date hereof, pursuant to an Assignment and Assumption Agreement entered into effective as of October 3, 2024, by and between Jackrabbit CA and OpCo (the “Assignment and Assumption Agreement”), Jackrabbit CA assigned the Contributed Assets (as that term is defined in the Assignment and Assumption Agreement) to OpCo;

WHEREAS, the Contributed Assets include, but are not limited to, all patent rights of Jackrabbit CA, including the items listed in Appendix A; and

WHEREAS, Jackrabbit CA is the record owner of the United States patents and patent applications listed in Appendix A attached hereto, including any inventions, procedures, designs and/or processes related to and supported thereby owned by Jackrabbit CA (the “Patents”); and

WHEREAS, Jackrabbit CA and OpCo now desire to memorialize in this Assignment the transfer of such Patents;

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, Jackrabbit CA does hereby sell, convey, transfer, and assign to OpCo, Jackrabbit CA’s entire right, title and interest in and to the Patents, together with all (i) divisionals, continuations, and continuations in part that claim priority to the Patents to the extent the claims thereof are supported by the Patents; (ii) reissues, renewals, extensions or additions to the Patents; (iii) foreign equivalents of the Patents; and (iv) rights to apply for, prosecute and obtain patents in any of the inventions, procedures, designs and/or processes disclosed and supported in the Patents in any country in the world, including the right to claim priority from or in common with the Patents under any and all applicable treaties and agreements, in all countries in the world and for the use and enjoyment of its successors, assigns or other legal representatives, as fully and entirely as the same would have been held and enjoyed by Jackrabbit CA if this Assignment and sale had not been made, together with all income, royalties or payments due or payable as of the effective date of this Assignment or thereafter, including all claims for damages by reason of past, present or future infringement or other unauthorized use, with the right to sue for, and collect the same for its own use and enjoyment, and for the use and enjoyment of its successors, assigns, or other legal representatives.

If, notwithstanding the foregoing, Jackrabbit CA retains as a matter of law in any jurisdiction any rights (such as moral rights) in any of the Patents, Jackrabbit CA hereby unconditionally and irrevocably waives the enforcement of such retained rights against OpCo and its licensees, sub-licensees, assignees and successors in title to the Patents or OpCo’s business (“Permitted Assigns”), and all claims and causes of action of any kind against OpCo or Permitted Assigns with respect hereto, and agrees to consent to and join in any action to enforce such retained rights on OpCo’s behalf. If Jackrabbit CA has retained rights that cannot be so waived, then

Jackrabbit CA hereby grants to OpCo an exclusive, irrevocable, perpetual, worldwide, royalty-free license, with right to sublicense through multiple tiers of sublicensees, to use and exploit such retained rights in any manner whatsoever.

Sections 4, 5, 9, 10, 11, 12, 13, and 15 of the Assignment and Assumption Agreement (and any related defined term) are hereby incorporated herein and shall be applied *mutatis mutandis* to this Assignment.
