and claims for damages and the proceeds thereof, including, without limitation, license royalties, and proceeds of infringement suits, and all rights corresponding thereto throughout the world by reason of any past and future acts of infringement that have occurred or may occur. Each Assignor hereby authorizes and requests the United States Commissioners of Patents and Trademarks, United States Register of Copyrights and other intellectual property offices and registries throughout the world to register said Intellectual Property (as applicable), including those listed on the Exhibit, to the Company, for its interest as assignee, its successors, assigns, and legal representatives, as fully and entirely as the same would have been held and enjoyed by such Assignor had this assignment not been made.

2. Upon each request by the Company, without additional consideration, each Assignor agrees to promptly execute documents, including further confirmatory assignments to the Company, as necessary, testify and take other acts at the Company's expense as the Company may deem necessary or desirable to procure, maintain, perfect, and enforce the full benefits, enjoyment, rights, title and interest, on a worldwide basis of the Property assigned hereunder, and render all necessary assistance in making application for and obtaining original, divisional, renewal, or reissued utility and design patents, copyrights, mask works, trademarks and all other technology and intellectual property rights throughout the world related to any of the Property, in the Company's name and for its benefit. Each Assignor hereby quitclaims to the Company any and all claims, of any nature whatsoever, which such Assignor now has for infringement or misappropriation of any Property assigned hereunder.

3. Each Assignor agrees to provide to the Company from and after the execution of this Agreement and at the expense of the Company competent and knowledgeable assistance to facilitate the transfer of all information, know-how, techniques, processes and the like related to such tangible manifestation and otherwise comprising the intangible aspects of the Property.

4. 5. Each Assignor further represents and warrants to the Company that, to such Assignor's Knowledge, no claim, whether or not embodied in an action past or present, of any infringement or misappropriation, of any conflict with, or of any violation of any valid patent, valid trade mark, valid copyright, valid domain name or URL, valid trade secret or other valid intellectual property right or similar right, has been made or is pending or threatened in writing against such Assignor relative to the Property. Each Assignor agrees to promptly inform the Company of any such claim arising or threatened in writing in the future with respect to the Property or any part thereof.

6. Capitalized terms used in this Agreement and not defined herein have the meaning given to them in the License Agreement. This Agreement and the Exhibit constitute the entire, complete, final and exclusive understanding and agreement of the parties hereto (the "*Parties*" and each, a "*Party*") with respect to the subject matter hereof, and supersedes any other prior or contemporaneous oral understanding

or agreement or any other prior written agreement. No modification of or amendment to this Agreement, nor any waiver of any rights under this Agreement, will be effective unless in writing and signed by the Parties.

7. This Agreement will be governed and construed in accordance with the laws of the State of Delaware without giving effect to any conflicts of laws principles that require the application of the law of a different state. Each Assignor hereby expressly consents to the personal jurisdiction of the state and federal courts located in the county in which the Company has its principal offices for any lawsuit filed there against such Assignor by the Company arising from or related to this Agreement.

8. Nothing contained in this Agreement is intended to provide any right, interest or remedy to any person or entity, other than each Assignor and the Company.

9. If any provision of this Agreement is found invalid or unenforceable, in whole or in part, the remaining provisions and partially enforceable provisions will, nevertheless, be binding and enforceable.

10. Failure by any Party to exercise any of its rights hereunder shall not constitute or be deemed a waiver or forfeiture of such rights.

11. The provisions hereof shall inure to the benefit of, and be binding upon, the successors and assigns of the Parties.
