ASSIGNMENT

U.S. Patent No: 11,076,649 (US Serial No: 16/444,199)

Date of Patent: August 3, 2021 (Filed: June 18, 2019)

Title: GLOVE

ZERO FRICTION, LLC, having a principal place of business at 1 Trans Am Plaza Drive, Suite 540, Oakbrook Terrace, Illinois 60181 ("Assignor") is owner of the U.S. Patent Number identified-above ("‘649 Patent").

John R. Iacono of Elmhurst, Illinois ("Assignee") desires to acquire rights in and to the ‘649 Patent Family (defined below).

THEREFORE, for valuable consideration, the receipt of which is acknowledged, Assignor assigns to Assignee all of its right, title and interest in the ‘649 Patent and its patent family, which includes any (U.S. or foreign) reissues, extensions, divisions, continuations in whole or part, or substitute applications filed claiming the benefit of the ‘649 Patent (“‘649 Patent Family”) to Assignee for the entire term granted for each member of the ‘649 Patent Family. The right, title, and interest conveyed in this Assignment includes, but is not limited to, all rights to sue for past, present and future infringements or misappropriations of the ‘649 Patent Family, including damages or any other remedy available at law or equity. Further, the right, title, and interest conveyed in this Assignment is held and enjoyed by Assignee, and Assignee's successors, as fully and exclusively as it would have been held and enjoyed by Assignor had this assignment not been made.

The Assignor warrants itself to be the owner of the interest herein assigned and to have the right to make this assignment and further warrants that there are no outstanding prior assignments, licenses, or other rights in the interests herein assigned that would diminish its assignment to Assignee.

Assignor further agrees to: (a) cooperate with Assignee in the protection of the patent rights and prosecution and protection of foreign counterparts; (b) execute, verify, acknowledge and deliver all such further papers, including patent applications and instruments of transfer; (c) perform such other acts as Assignee lawfully may request to obtain or maintain the ‘649 Patent Family and any and all applications and registrations for the invention in any and all countries; and (d) assist in any proceedings or transactions involving the ‘649 Patent Family, including, but not limited to, the preparation and execution of preliminary

statements; giving and producing evidence; and performing any and all other acts necessary to maintain and enforce the '649 Patent Family, both in the United States and in other countries.
