(5) (General) In this respect, written does not mean otherwise specified in point 4 (2), written is § 886 ABGB (signature). An advanced electronic signature (Ari 26 elDASVO, (EU) No. 910/2014) fulfills the requirement of written form pursuant to Section 886 ABGB (legality), in sofar as this is within the parties' disposition.

(6) (Advertising information) The Contractor shall send the Client general tax law and general business law information electronically (e.g. by email). The client acknowledges that he has the right to object to the sending of direct advertising at any time.

5. Protection of the contractor's intellectual property

(1) The client is obliged to ensure that the reports, expert opinions, organizational plans, drafts, drawings, calculations and the like prepared by the contractor within the scope of the order are only used for the purposes of the order (e.g. in accordance with § 44 para. 3 ESIG 1988). In general, the disclosure of written as well as oral professional statements of the contractor to a third party for the purpose of

Nu1zation of the contractor's written consent.

(2) The use of both written and oral professional statements of the Contractor for advertising purposes is not permitted; a violation entitles the Contractor to terminate without notice all orders not yet executed by the Client.

(3) The Contractor shall be entitled to the copyright to its services. The granting of rights of use shall be subject to the written consent of the Contractor.

6. Mängel elimination

(1) The Contractor shall be entitled and obliged to correct a ny subsequent inaccuracies and deficiencies in its written and oral professional statements and shall be obliged to inform the Client thereof without delay. He shall also be entitled to inform third parties of the change to the original professional statement.

(3) The client shall be entitled to a reduction in price if the rectification of any defects fails. Insofar as claims for damages exist beyond this, point 7 shall apply.

7. Liability

(1) All liability provisions apply to all disputes in connection with the contractual relationship, regardless of the legal grounds. The Contractor shall only be liable for damages in connection with the contractual relationship (including its termination) in the event of intent and gross negligence. The applicability of § 1298 SaQ 2 ABGB is excluded.

(2) In the event of gross negligence, the client's obligation to pay compensation shall amount to a maximum of ten times the minimum sum insured under the professional liability insurance in accordance with Section 11 of the Austrian Act on Business Consultancy Professions ZQ17 (WTBG 2017), as amended.

(3) The limitation of liability pursuant to item 7 (2) refers to the individual case of damage. The individual case of damage includes all consequences of a breach of duty irrespective of whether damage has occurred in one or several consecutive years. Multiple acts or omissions based on the same or similar sources of error shall be deemed a single breach of duty if the matters in question are legally and economically connected. A uniform damage is a single case of damage, even if it is based on several breaches of duty. Furthermore, except in the case of wilful damage, the c on t r a c t o r shall not be liable for loss of profit or for incidental, consequential, incidental or similar damages.

(4) Any claim for damages may only be asserted in court within six months of the claimant(s) becoming aware of the damage, but at the latest within three years of the occurrence of the (primary) damage after the event giving rise to the claim, unless other limitation periods are stipulated by law.

(5) In the case of *the* (factual) applicability of § 275 UGB, its liability standards also apply if several persons were involved in the execution of the order or if several acts liable for compensation have been committed and regardless of whether other parties have acted intentionally.

(6) In cases in which a formal audit opinion is issued, the warranty period begins at the latest when the audit opinion is issued.

(7) If the work is carried out with the involvement of a third party, e.g. a data processing company, any claims for warranty and damages against the third party arising under the law or contract shall be deemed to have been assigned to the Client upon notification of the Client. The Contractor shall, without prejudice to point 4 (3), only be liable in this case for negligence in the selection of the third party.

(8) Any liability of the Contractor towards third parties is excluded in any case. If Drifle comes into contact with the Contractor's office because of the Client in any form whatsoever, the Client must expressly inform the Contractor of this circumstance. Insofar as

Page 9

If such an exclusion of liability is not permitted by law or if liability towards third parties has been assumed by the Contractor by way of exception, these limitations of liability shall in any case also apply to third parties. In any case, third parties shall not be entitled to assert any claims that go beyond an existing claim of the client. The maximum amount of liability shall only apply once in total for all injured parties, including the claims for compensation of the client itself, even if several persons (the client and a third party or several third parties) have been injured; injured parties shall be compensated according to their occurrence. The Client shall indemnify and hold the Contractor and its employees harmless from and against any and all claims of third parties in connection with the disclosure of written and oral professional statements of the Contactro such third parties.

The Contractor shall be entitled to retain copies of these to the extent n e cessary for the proper documentation of its services or if it is legally or professionally required.

(5) If the Contractor assists the Client in fulfilling the obligations incumbent on the Client as the party responsible for data protection vis-à-vis data subjects, the Contractor shall be entitled to charge the Client for the actual expenses incurred. The client must be expressly informed of this circumstance in the notification in accordance with point 9 (4).

(1) If the client is in default with the acceptance of the service offered by the contractor or if the client fails to perform a service incumbent upon it in accordance with point 2 or otherwise, the contractor shall be entitled to terminate the contract without notice. The same shall apply if the Client demands (even partial) execution of the order which, in the Contractor's justified opinion, does not correspond to the legal situation or customary professional principles. (2) Upon termination of a standing order, the agreed fee shall be due for the remaining order status if it is completed or if this is not done for reasons attributable to the client (reference is made to point 11. (1)). Agreed lump-sum fees shall be prorated if necessary.

(3) If the Contractor fails to perform the work, the Contractor shall also be entitled to set a reasonable deadline for the Contractor to make up for this, with the declaration that the contract shall be deemed terminated if the deadline expires without result, otherwise the consequences of Section 11 (1) shall apply.

(4) In the event of non-compliance with the termination deadline pursuant to Section 9 (3) by the Client, as well as in the event of termination of the contract pursuant to Section 10 (2) by the Contractor, the Contractor shall retain the full fee claim for three months.

12.Fee

(1) Unless gratuitousness has been expressly agreed, an appropriate final fee shall be o w e d in any case in accordance with § 9 1004 and § 1152 ABGB. The amount and nature of the contractor's fee claim shall be determined by the *agreement* concluded between thm and his client.

(11) Unless otherwise agreed, fees and advances on fees are due immediately after their written assertion. Interest on arrears may be charged for payments made later than 14 days after the due date. In the case of mutual entrepreneurship, interest on arrears shall apply in the amount specified in § 4€6 1st and 2nd sentence UGB.

(19) Offsetting against the Contractor's claims for remuneration in accordance with item 12. is only permitted with undisputed or legally established claims.
