PATENT ASSIGNMENT

In consideration of the payment of one dollar (\$1.00) and for other good and valuable consideration, the receipt of which is hereby acknowledged, Innograf LLC ("Assignor") assigns to Hansen Metallurgical Services LLC ("Assignee")

- 1) a 50% equal interest in and to its entire right, title, and interest in and to an invention entitled "Method for Evaluating Machined Electrodes" (the "Invention"), as covered by Patent No. US 11,619,482 B1, dated April 4, 2023 and any and all reissue patents, derivative works, modifications, improvements, adaptations, or variations of the invention.
- 2) a 50% equal interest in and to its entire right, title, and interest in and to the Pending Application for the "Graph Check" System Patent which has been applied for under Serial number 17/867914 (the "System Patent") and any and all reissue patents, derivative works, modifications, improvements, adaptations, or variations of the invention.

Each Party shall have the independent right to make, use, sell, offer to sell, license, or otherwise exploit the above IP.

Assignor agrees to release and disengage with its existing legal counsel, CreatiVenture Law in consideration that the Assignee will pay all pending and future legal fees and maintenance fees associated with the Invention and System Patent. From the Effective Date, Assignee shall have the right to enforce the above patent and all issued patents resulting from the above IP.

Assignor represents and warrants that it has not transferred, licensed, and/or assigned any interest in the Invention to anyone other than Assignee, and that it has not entered into any contract, assignment, or license conveying any right granted to Assignee hereunder, or that would otherwise conflict with this Assignment. This Assignment and each of its terms shall be binding on Assignor, its representatives, successors and assigns, and shall inure to the benefit of Assignee, its successors, and assigns.

Effective Date:

June 1, 2024
