ASSIGNMENT OF PATENT APPLICATIONS AND PATENTS

Date: December 5, 2024

**Parties:**

The Assignor, Guardian Fall Ltd

a private limited company of England and Wales having its principal place of business at New Road, Sheerness, Kent, United Kingdom ME12 1PZ

and

The Assignee, Pure Safety Group, Inc.

a corporation of Delaware having its principal place of business at 607 E. Sam Houston Parkway S., Suite 800, Pasadena, Texas 77503 United States of America

Now, therefore, for good and valuable consideration, including the payment of \$10, the receipt of which is hereby acknowledged, the Assignor agrees to assign and transfer and hereby assigns and transfers to the Assignee, its successors, and its assigns, the entire right, title, and interest, including all rights of priority, in, to, and under the applications for patent and patents listed in Schedule A attached hereto, the subject matter, including any and all inventions, improvements, and discoveries, set forth in said applications for patent and patents (as used herein "patent" refers to any form of intellectual property protection including, without limitation, invention rights, utility patent rights, design rights, and utility model rights) (hereinafter "Inventions"); any and all existing and future applications for patent and patents of any country or region or under any international agreement for any of said Inventions (including, without limitation, said applications for patent and patents, any and all applications for patent and patents directly or indirectly claiming priority to or benefit of any application for patent for any of said Inventions, any and all applications for patent and patents from which any application for patent for any of said Inventions directly or indirectly claims priority or benefit, and any and all continuation applications of, continuation-in-part applications (hereinafter CIPs) of, divisional applications of, national-phase applications of, regional-phase applications of, renewals of, and substitutes for any application for patent for any of said Inventions) (hereinafter "Applications for Patent"); any and all patents which may be granted on or as a result of said Applications for Patent (hereinafter "Patents"); and any and all reissues, reexaminations, and extensions of said Applications for Patent or said Patents.

The Assignor HEREBY represents that it conveys its full rights in all countries and regions and under all international agreements to the entire right, title, and interest herein assigned and transferred, and that it has not executed and will not execute any agreement in conflict herewith;

AND the Assignor HEREBY authorizes Assignee, its successors, its assigns, its nominees, and its legal representatives to file said Applications for Patent in its name in any country or region or under any international agreement;

AND the Assignor HEREBY authorizes and requests the officials of all countries and regions and under all international agreements whose duty it is to issue patents, to issue to Assignee, its successors, or its assigns, as assignee of my entire right, title, and interest, said Patents, in accordance with the terms of this assignment and transfer;

AND the Assignor HEREBY covenants and agrees that it will, each time a request is made, and without undue delay, execute and deliver all such papers as may be necessary or desirable to perfect the title in said Inventions, Applications for Patent, and Patents, to Assignee, its successors, or its assigns; communicate to Assignee, its successors, its assigns, its nominees, or its legal representatives, all known facts respecting said Inventions, Applications for Patent, and Patents; testify in any legal or administrative proceedings and sign all lawful papers (including, without limitation, divisional applications, continuation applications, CIPs, and reissue applications) relating to said Inventions, Applications for Patent, and Patents; and make all rightful oaths and declarations and generally to do everything possible to aid Assignee, its successors, its assigns, its nominees, and its legal representatives to obtain, maintain, and enforce, for its or their own benefit, proper intellectual property protection for said Inventions, Applications for Patent, and Patents, provided the expenses which may be incurred by me in lending such cooperation and assistance are paid by Assignee, its successors, its assigns, its nominees, or its legal representatives.

IN WITNESS of which the parties have caused this Assignment to be executed by their duly authorised representatives the day and year first before written.
