PATENT ASSIGNMENT AGREEMENT

THIS PATENT ASSIGNMENT AGREEMENT ("Agreement") is made as of November 26, 2024 ("Effective Date") by RANDY WAYLAND (in his personal capacity), an individual residing in San Diego, CA (the "Assignor") and ICON SEMICONDUCTOR, INC., a Delaware corporation, located at 13034 Seagrove Street, San Diego, CA 92130 ("Assignee") (each, a "Party" and collectively, the "Parties"). All capitalized terms used, but not otherwise defined, in this Agreement shall have the meanings such terms are given in the Contribution Agreement (as defined below).

WHEREAS, Assignor and Assignee are parties to that certain Contribution Agreement, dated as of November 4, 2023 (the "Contribution Agreement"), pursuant to which, among other things, Assignor assigned and transferred to Assignee all of Assignor's right, title and interest in, to and under all intellectual property rights owned by Assignor that relate to Assignee, including the patents identified on Schedule A hereto (collectively, the "Transferred Patents"); and

WHEREAS, the Parties desire to confirm the assignment of the Transferred Patents from Assignor to Assignee.

NOW, THEREFORE, in consideration of the foregoing premises and for other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, and intending to be legally bound hereby, the Parties hereby agree as follows:

1. Patent Conveyance. Pursuant to and as more fully set forth in the Contribution Agreement, Assignor has conveyed, transferred, and assigned, and does hereby irrevocably and unconditionally convey, transfer, and assign, to Assignee all of Assignor's right, title and interest in, to and under: (i) the Transferred Patents; (ii) all causes of action (whether known or unknown or whether currently pending, filed, or otherwise) and other enforcement rights under, or on account of, the Transferred Patents, including, without limitation, all causes of action and other enforcement rights for (A) damages, (B) injunctive relief, and (C) any other remedies of any kind for past, current and future infringement; (iii) all rights to collect royalties or other payments under or on account of the Transferred Patents due or payable on or after the Effective Date, the same to be held by Assignee for Assignee's own use and enjoyment, and for the use and enjoyment of Assignee's successors, assigns and other legal representatives, as fully and entirely as the same would have been held and enjoyed by Assignor if this Agreement and the transactions contemplated hereby, nor the Contribution Agreement or the transactions contemplated thereby, had not been made, including all rights therein provided by international conventions and treaties.

2. Assistance. Assignor further agrees to execute applications, assignments, declarations, affidavits, and any other documents or instruments as reasonably necessary to record and perfect Assignee's right, title and interest throughout the world in all Transferred Patents and assist Assignee as reasonably necessary in recording and perfecting such right, title and interest in Assignee.

3. Counterparts. This Agreement may be executed in any number of counterparts, each of which shall be deemed an original, and all of which together shall constitute one and the same instrument.

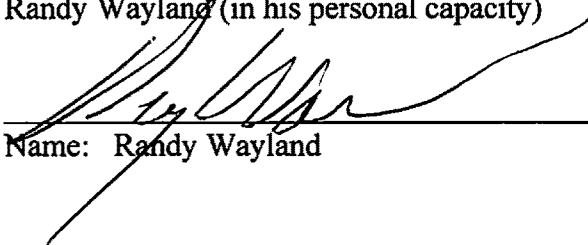

4. Governing Law. This Agreement shall be governed in accordance with the laws of the State of Delaware as such apply to contracts made and to be performed in that state, irrespective of its conflicts of laws principles.
