Patent Assignment Agreement

This PATENT ASSIGNMENT AGREEMENT (this "Assignment") is dated as of September 25, 2024, by and between States Title, LLC, a Delaware limited liability Company ("Assignor"), and Doma Technology, LLC, a Delaware limited liability company ("Assignee").

[REDACTED]

WHEREAS, Assignor is the owner of its right, title and interest in, to and under the national and multinational statutory invention registrations, patents and patent applications listed in Schedule A hereto and the inventions claimed therein (collectively, the "Assigned Patents" and each an "Assigned Patent"); and

WHEREAS, [REDACTED] Assignor desires to assign the Assigned Patents to Assignee.

NOW, THEREFORE, in consideration of the premises and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties hereto agree as follows:

1. Assignment. Assignor hereby irrevocably sells, assigns, transfers, conveys and delivers unto Assignee Assignor's entire right, title and interest in, to and under the Assigned Patents and all letters patents and patent applications presently pending or filed hereafter in any jurisdiction in all countries of the world (including all divisionals, continuations and continuations-in-part), extensions, foreign counterparts, reissues, renewals and re-examinations, in each case that claims priority or is entitled to claim priority, directly or indirectly, to any Assigned Patent, to be held and enjoyed by Assignee to the full end of the term for which the Assigned Patents are or may be granted, as fully and entirely as the same would have been held and enjoyed by Assignor had this assignment not been made, together with all rights to apply for and obtain registrations, renewals, reissues, continuations, continuations-in-part, divisionals, renewals, extensions and re-examinations for the foregoing, and all rights of recovery or to assert, file or maintain any action, claim or proceeding relating to infringement, misappropriation, dilution, unauthorized use or other violation of any of the foregoing accruing or occurring at any time prior to, on or after the date hereof and to all monies and proceeds therefrom.

2. Counterparts. This Assignment may be executed in any number of counterparts each of which when so executed shall be deemed to be an original and all of which taken together shall constitute one and the same agreement.

3. Governing Law. This Agreement shall be governed by and construed in accordance with the internal laws of the State of Delaware, without reference to any conflicts of laws principles.
