sufficiency of which is hereby acknowledged, and intending to be legally bound, I hereby assign and transfer to ASSIGNEE the entire right, title, and interest in and to the PATENT

APPLICATIONS and related inventions, including all improvements, variations, derivations, and inventive subject matter directly or indirectly related to the PATENT APPLICATIONS and inventions disclosed therein (hereinafter collectively referred to as INVENTIONS), and all provisional or non-provisional patent applications related thereto or issued patents that have been or may be granted thereon, including without limitation all reissues, divisions, continuations, continuations in part, and extensions of such patent applications or patents, or any other form of protection for the INVENTIONS related to the PATENT APPLICATIONS, in the United States and foreign countries; all rights of action arising from the INVENTIONS and all applications and patents directed toward the INVENTIONS; all claims for damages by reason of past and future infringement of the INVENTIONS and all applications and patents directed toward the INVENTIONS, and the right to sue and collect damages for such infringement; all of the foregoing assigned rights to be held and enjoyed by the ASSIGNEE for its own use and benefit and for its successors and assigns as the same would have been held by me had this assignment not been made.

I do hereby further agree and promise to execute all instruments and render all such assistance as ASSIGNEE may request in order to make and prosecute any and all applications on the INVENTIONS, maintain and enforce any and all patents on the INVENTIONS, and confirm in ASSIGNEE legal title to the inventions and all applications and patents on the inventions in the United States and foreign countries, all without charge to ASSIGNEE but at no expense to me. In the event that ASSIGNEE is unable for any reason, after reasonable effort, to secure my signature on any document needed in connection with the actions specified in this paragraph, or to otherwise perfect in ASSIGNEE the entire right, title, and interest in and to the PATENT APPLICATIONS and related inventions, I hereby irrevocably designate and
